Philosopher of the Heart Clare Carlisle, 2025-10-16 *Philosopher of the Heart* is the groundbreaking biography of renowned existentialist Søren Kierkegaard's life and creativity, and a searching exploration of how to be a human being in the world. Søren Kierkegaard is one of the most passionate and challenging of all modern philosophers, and is often regarded as the founder of existentialism. Over about a decade in the 1840s and 1850s, writings poured from his pen pursuing the question of existence—how to be a human being in the world?—while exploring the possibilities of Christianity and confronting the failures of its institutional manifestation around him. Much of his creativity sprang from his relationship with the young woman whom he promised to marry, then left to devote himself to writing, a relationship which remained decisive for the rest of his life. He deliberately lived in the swim of human life in Copenhagen, but alone, and died exhausted in 1855 at the age of 42, bequeathing his remarkable writings to his erstwhile fiancée. Clare Carlisle's innovative and moving biography writes Kierkegaard's life as far as possible from his own perspective, to convey what it was like actually being this Socrates of Christendom—as he put it, living life forwards yet only understanding it backwards.

The Heart and its Attitudes Stephen Darwall, 2024-04-30 Philosophers don't often write about the heart. At least, analytical philosophers don't. Why is this? Philosophers are said to live life “in their heads” rather than “from their hearts.” But even if that is so, why don't they think and write about the heart? Moreover, it can hardly have escaped philosophers' attention that matters of the heart are central to what we human beings value most about our lives, including our lives with animals. Philosophers write a lot about friendship and love, but they tend to do so in terms that leave out heartfelt connection. They speak rather of commitment to one another and each other's well-being, or taking each other as ends, or sharing deliberative standpoints or living life together, or a whole host of other topics, and much less about mutual emotional vulnerability and sharing and being in one another's hearts. Surely one explanation of philosophers' reticence is that talk of “the heart” seems unavoidably metaphorical. It turns out to be easy enough, however, to cash the metaphor in if we simply take “heart” refers to a cluster of emotional susceptibilities that have an essentially reciprocating structure. The heart aims at heartfelt connection—at shared experience of joys and sorrows, hopes and fears, and other personal emotions. We seek naturally to share these feelings with others and must suppress our natural tendencies if we wish to avoid doing so. Our heart's wish is to be open to other hearts in the hope that they will be open to ours, and thereby us, in return. This book is a

systematic treatment-perhaps the first-of “attitudes of the heart”-remorse (versus guilt), love, trust, gratitude, personal anger (versus righteous anger), jealousy, and others-and their role in mediating personal relationship, attachment, and connection. This is obviously interesting in its own right, but it also shows how heartfelt attitudes mirror more extensively studied “reactive attitudes” of guilt, resentment, and blame (“attitudes of the will”). Whereas the latter mediate moral relations of mutual respect and accountability, attitudes of the heart are the currency of heartfelt connection and personal relationship.

Philosophy of the heart and its medical implications \ Whitney Philamlee,2010

The Line Through the Heart J. Budziszewski,2023-05-16 Why do we demand happiness on terms that make happiness impossible? And what can we do about it? Acclaimed philosopher J. Budziszewski addresses these questions in the brilliantly persuasive book *The Line Through the Heart*, finding the answers in the natural law. The journey of exploration takes us through politics, religion, ethics, law, philosophy, and more, with Budziszewski as expert guide. While investigating the natural law and its implications, Budziszewski boldly confronts a wide range of contemporary issues, offering a newly integrated view of abortion, evolution, euthanasia, capital punishment, runaway courts, and the ersatz state religion built in the name of religious toleration. Written in Budziszewski's usual crystalline style, *The Line Through the Heart* shows that natural law is a matter of concern not merely to scholars but to everyone, for it touches how each of us lives, and how all of us live together. His profound examination of this subject helps us make sense of why habits that run against our nature have become second nature, and why our world seems to be going mad.

Logic of the Heart, The James R. Peters,2009-03 Drawing from the thought of Augustine, Pascal, and Hume, Peters provides a clear philosophical defense of the rationality of Christian faith in a postmodern world.

The Heart of Wisdom Richard White,2012-12-14 *The Heart of Wisdom* explores the intersection of philosophy and spirituality. Though spirituality is a concept often viewed with skepticism by philosophers and others, spiritual concerns are prominent in many people’s lives, whether or not they ascribe to a religious creed. This book examines spiritual concepts like generosity, suffering, and joy, incorporating the various perspectives of great philosophers, including Nietzsche, Aristotle, and Derrida, as well as Eastern wisdom traditions, including Buddhism and Vedanta philosophy.

The Heart of Things A.C. Grayling,2010-12-09 The new bestseller from one of Britain's most pre-eminent philosophers and arguably the best known, A.C. Grayling Everyone wishes to live a life that is satisfying and fulfilling, in which there is achievement and pleasure, and which has the respect of people one, in turn, respects. And one of the fundamentals to living such a life is to reflect on the choices we make. In this new collection, A.C. Grayling invites the reader into a conversation with ideas. From personal questions about happiness and quality of life to wider public concerns such as war and democracy, these essays provide a springboard to thought and to exploring what is best about the human heart and mind.

Knowing by Heart Anthony J. Steinbock, 2021-09-15 Drawing on and developing the phenomenological work of figures such as Edmund Husserl and Max Scheler, *Knowing by Heart: Loving as Participation and Critique* provides an account of the various feelings and feeling-states that pertain to matters of the heart. Anthony J. Steinbock's work investigates the special kind of knowing that is revealed most profoundly through love. *Knowing by Heart* describes the movement of loving as a participation that bears on all beings. Eschewing the dichotomy of rationalism and sensibility that has dominated discussions of love and emotion, Steinbock understands the heart as a vast schema ranging from the deepest loving to affects and felt conditions. The book brings into focus the importance of a full-bodied relational account of a normative critique based in emotion. From a phenomenological description of diverse feelings to the normativity of loving as the discernment of the heart, this work evaluates hating's relation to loving. At the basis of all this is a phenomenological and philosophical anthropology in response to the basic question: In reality, who and what are we?

The Mechanization of the Heart Thomas Fuchs, 2001 In *Mechanization of the Heart: Harvey and Descartes* Thomas Fuchs discusses the similarities and differences of the views of the two seventeenth-century scholars William Harvey and Rene Descartes on the heart and circulation of the blood; Fuch traces the reception of the two views in the medical literature of the time and the influence both views had. In *Mechanization of the Heart: Harvey and Descartes* Thomas Fuchs begins by comparing the views of William Harvey [1578-1657] and Rene Descartes [1596-1650] on the heart and the circulation of the blood through the body. These two seventeenth-century scholars -- one a British medical doctor, the other a French philosopher and mathematician -- differed substantially in their beliefs: they both accepted the idea of circulation of the blood, but differed on the action of the heart. Fuchs traces the ways the opposing views were received, revised, rejected, or renewed in succeeding generations by medical writers in various parts of Europe. He then examines Harvey's approach to cardiac and circulatory physiology, mainly through an examination of Harvey's book *De motu cordis*; he follows with a discussion of the background in Aristotelian philosophy that was the requirement for all studies in medicine and how that affected Harvey's beliefs. Fuchs then turns to Descartes's presentation of Harvey's views and shows how his view, rather than Harvey's, was accepted in Europe at that time. Marjorie Grene brings to the translation her distinguished background in philosophy and her keen insights into medical philosophy. Thomas Fuchs teaches psychiatry at the Rupert-Karls-Universitat, Heidelberg. Marjorie Grene is Professor Emeritus of Philosophy at the University of California at Davis, and Adjunct Professor and Honorary Distinguished Professor of Philosophy at Virginia Tech University.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
