A Closer Look at Juvenile Homicide Katelyn A. Hernandez, Sara Ferguson, Tom D. Kennedy, 2020-02-29 This book focuses on the small but disturbing percentage of homicides by children that occur each year, providing a brief overview of the legal, individual, and social aspects of this phenomenon. Since the 1980s, these crimes have been on the rise and the resulting legal response has been harsher punishments as well as treatment of children like adults. This has led to a host of failures in the juvenile justice system wherein recidivism is high and general outcome is low. The book reviews the literature on youth homicide, including gender, age, and race factors, as well as individual, familial, and environmental risks. The authors seek to aid in the identification and understanding of juvenile homicide to raise awareness of both a population that receives little formal psychological intervention and of the systemic deficiencies that affect these individuals as well as society itself. Exploring current theories, trends, and common factors in juvenile homicide, this brief aims to improve prevention, intervention, and reintegration of young offenders into the community.

Revolution at the Roots William D. Eggers, John O'Leary, 1995 A revolution is sweeping across America's states and cities. From governors such as Christine Todd Whitman in New Jersey, to New York's mayor Rudy Guiliani in New York, the revolutionaries are not just against big government, but also distant government. Groups of citizens have banded together with these enterprising leaders to experiment with a wide range of new approaches to governance--the future of political change in America.

A Brighter Day Gail Thompson, 2009-11-01 Featuring fantastic real-life stories that are contemporary and motivational, this strategy guide for parents provides the necessary tools for those who want to make a difference in their children's education. By addressing difficult issues that have a tendency to distract kids from their studies—such as peer pressure and sexuality—as well as the everyday influence of rap music, television, and video games, these accessible strategies teach parents how to communicate better and raise their expectations of their children. Rounded out by advice on how to help with homework, maintain good grades, and enforce the respect for authority on which a good education depends, this indispensable guide also grants parents better insight into the challenges faced by schools.

Ghosts from the Nursery Robin Karr-Morse,Meredith S. Wiley,2007-12-01 An “ominous and persuasive” study of when violence starts in child development—and the preventive measures to stop it (The New York Times Book Review). This new, revised edition incorporates significant advances in neurobiological research and includes a new introduction by Dr. Vincent J. Felitti, a leading researcher in the field. When *Ghosts from the Nursery: Tracing the Roots of Violence* was first published, it was lauded for providing scientific evidence that violence can originate in the womb and become entrenched in a child’s brain by preschool. The authors’ groundbreaking conclusions became even more relevant following the wave of school shootings across the nation including the tragedies at Columbine High School, Sandy Hook Elementary School, and shocking subsequent shootings. Following each of these, media coverage and public debate turned yet again to the usual suspects concerning the causes of violence: widespread availability of guns and lack of mental health services for late-stage treatment. Discussion of the impact of trauma on human life—especially early in life during chemical and structural formation of the brain—is missing from the equation. Karr-Morse and Wiley continue to shift the conversation among parents and policy makers toward more fundamental preventative measures against violence. “Karr-Morse and Wiley boldly raise some tough issues . . . [They] start with a grim question—why are children violent?—and they forge a passionate and cogent argument for focusing our collective energies on infancy and parenthood to stop the cycle of ruined lives.” —The Seattle Times

Up in Here Mark Dostert,2014-09-01 Raised in a comfortable Dallas suburb, Mark Dostert crossed cultural and socioeconomic boundaries as a college student by volunteering as a counselor at the Cook County Juvenile Temporary Detention Center, Chicago’s infamous 500-cell juvenile jail, known locally as the Audy Home. Inmates there had been indicted on first-degree murder, rape, and carjacking charges, yet some enthusiastically met with him for weekly Bible-based lessons and discussions. Dostert formed friendly relationships with his students and envisioned becoming an even closer mentor to the legally troubled boys when he became an employee there after graduating from college. The juveniles’ attitudes toward Dostert change, however, once he begins working as a “Children’s Attendant” at the Audy Home, clocking in for eight hours every day to enforce rules and maintain order on the cellblocks. His colorblind, altruistic volunteer world fractures into a full-time, emotionally charged reality of white and black and brown. When the boys change, he must change too. Despite wanting to help them feel human in such a dehumanizing environment, Dostert realizes he needs to make sure his kindness is not perceived as weakness. Dostert learns to march the juveniles through the facility to school, recreation activities, and chapel. He must strip-search them, interrupt their brawls, root through their cells for drugs and handcrafted weapons, and monitor group showers to thwart sexual extortion and the inscription of gang symbols in soap on walls and

mirrors. Week after week and month after month, the job exposes hidden views not only of the juveniles and the “system” incarcerating them, but of Children’s Attendant Dostert himself. From one man’s struggle to reconcile his humanitarian intentions with his actual job responsibilities in what, to him, is a strange new world, emerges a sincere effort to confront the realities of America’s persisting racial tensions and institutionalized poverty. Dostert’s story is an honest and unflinching journey from thinking he has many of the answers for how to change this world to discovering how little he really knows about the world he is trying to change.

Writing the Future of Black America Daniel Grassian, 2009 An insightful exploration into the works of African American writers born in the 1960s and 1970s *Writing the Future of Black America* explores the work of eight representative African American writers of the hip-hop generation to assess their common themes and offer insights into contemporary race relations in America as expressed and challenged in their works. In this groundbreaking study, Daniel Grassian takes as his subjects a group of impressive novelists, essayists, poets, and playwrights--Paul Beatty, Trey Ellis, Terrence Hayes, Allison Joseph, Jake Lamar, Suzan-Lori Parks, Danzy Senna, and Colson Whitehead--to chart the depths of their literary work against that of their predecessors in the civil rights generation and their predominantly white contemporaries of Generation X. Characterized by the pursuit of empowerment through hybridity, social criticism, and personal expression, hip-hop has become the music and culture of choice for a sizable portion of America, regardless of race or socioeconomic standing. Meanwhile the writers of this generation have received little serious critical attention, aside from singular book reviews and occasional essays. Grassian fills in a gap in the discourse with his thorough analysis of the works crafted by these distinguished hip-hop writers, and he makes a case for the validity and value of studying their sophisticated engagements with race in contemporary America. Selected because their work addresses a broad range of African American life, these writers fathom such topics as what it means to be African American or multiethnic in an increasingly global society, what role art and literature play in affecting their communities, and what positive and negative authority has been assigned to popular culture (and hip-hop culture specifically) in modern African American life.
