Resilience of Luxury Companies in Times of Change Gabriella Lojacono, Laura Ru Yun Pan, 2021-08-23 Why do some luxury companies remain resilient through times of change, while others do not? The reason is that these companies have unique skills to diversify their revenue generation by being ambidextrous. Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient, rather they require the ability to be ambidextrous - to explore new trajectories for future growth and exploiting their iconic values. In past decades, the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed. This includes the adoption of digital platforms such as ecommerce, social media and mobile enabled tools to continually elevate customer experience. In addition, new business models have emerged to address growing pains, particularly in inventory issues, over manufacturing and sustainability. Brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their DNA. Based on in-depth research and interviews with CEOs from leading luxury companies, Lojacono and Pan show how companies can hedge their risks and remain resilient in times of change.

Navigating the New Retail Landscape Alan Treadgold, Jonathan Reynolds, 2016-09-20 The retail industry globally is in the early stages of an era of profound, perhaps unprecedented, change. This book is intended to serve as a robust and practical guide to leaders of enterprises tasked with both understanding and delivering success in the new landscape of retailing. The book firstly describes the major directions and drivers of change that define the new global landscape of retailing (Part 1). Accelerating technology change, the rise to prominence globally of internet enabled shoppers and the rapid emergence of entirely new retail enterprises and business models are combining to re-shape the very fundamentals of the retail industry. No longer are shops needed to be in the business of retailing. No longer is choice for the shopper limited to the neighbourhood, town or even country in which they live. No longer is the act of retailing solely the preserve of traditional retail enterprises as internet-enabled businesses, technology, logistics, suppliers and financial services enterprises all seek direct relationships with the shopper. The new landscape of retailing is an unforgiving one. Success can be achieved more quickly than has ever been possible before but failure is equally rapid. The opportunities in the new landscape of retailing are profound, but so too are the challenges. Part 2 of this book discusses the structures, skills and capabilities retail enterprises will need if they are to be successful in this new landscape and the skills and perspectives that will be required of the leaders of retail enterprises. Case studies of innovative and successful enterprises are presented throughout the book to illustrate the themes discussed. Frameworks are presented to provide practical guidance for enterprise leaders to understand and contextualise the nature of change that is re-shaping retail landscapes globally. Clear guidance is given of the capabilities, skills and perspectives that will be needed at both an enterprise and a personal leadership level to deliver success in the new landscape of retailing.

And to do that, she'll have to go to the Magick School of England. Join Lisa in her journey to discover all the secrets of this world. Join her as she befriends mythical creatures, learns spells and magickal history, seeks love and companionship and battles deadly creatures.
