Facing Death: Images, Insights, and Interventions Sandra L. Bertman,2016-01-08 Facing Death is a unique handbook for educators, healthcare professionals and counselors. Whatever Happened to Pudding Pops? Gael Fashingbauer Cooper,Brian Bellmont,2011-06-07 If you owe a couple cavities to Marathon candy bars, learned your adverbs from Schoolhouse Rock!, and can still imitate the slo-mo bionic running sound of The Six Million Dollar Man, this book is for you. Whatever Happened to Pudding Pops? takes you back in time to the tastes, smells, and sounds of childhood in the '70s and '80s, when the Mystery Date board game didn't seem sexist, and exploding Pop Rocks was the epitome of candy science. But what happened to the toys, tastes, and trends of our youth? Some vanished totally, like Freakies cereal. Some stayed around, but faded from the spotlight, like Sea-Monkeys and Shrinky Dinks. Some were yanked from the market, revised, and reintroduced...but you'll have to read the book to find out which ones. So flip up the collar of that polo shirt and revisit with us the glory and the shame of those goofy decades only a native could love.

The 100 Most Popular Young Adult Authors Bernard A. Drew,1997-10-15 The book focuses on individuals writing in the '90s, but also includes 12 classic authors (e.g., Mark Twain, Louisa May Alcott, J.R.R. Tolkien) who are still widely read by teens. It also covers some authors known primarily for adult literature (e.g., Stephen King) and some who write mainly for middle readers but are also popular among young adults (e.g., Betsy Byars). An affordable alternative to multivolume publications, this book makes a great collection development tool and resource for author studies. It will also help readers find other books by and about their favorite writers.

Grief and the Healing Arts Sandra L. Bertman, 2018-02-06 For nearly three decades, Sandra Bertman has been exploring the power of the arts and belief-symbols, metaphors, stories--to alleviate psychological and spiritual pain not only of patients, grieving family members, and affected communities but also of the nurses, clergy and physicians who minister to them. Her training sessions and clinical interventions are based on the premise that bringing out the creative potential inherent in each of us is just as relevant-- perhaps more so--as psychiatric theory and treatment models since grief and loss are an integral part of life. Thus, this work was compiled to illuminate the many facets that link grief, counseling, and creativity. The multiple strategies suggested in these essays will help practitioners enlarge their repertoire of hands-on skills and foster introspection and empathy in readers.
