The Lives of Beetles Arthur V. Evans, 2023-01-17 A richly illustrated introduction to the incredible world of beetles With some 400,000 species, beetles are among the largest and most successful groups of organisms on earth, making up one-fifth of all plant and animal species. No other animals exhibit such a dazzling range of size, form, and color. Mostly small, sturdy, and compact, beetles are incredibly well-equipped to find food, reproduce, and avoid predators. Additionally, their collective roles as herbivores, hunters, and recyclers are critical to the sustainability of terrestrial ecosystems. In this lavishly illustrated book, beetle expert and author Arthur Evans presents an inviting and comprehensive introduction to the fascinating lives of the world's beetles. Universal in scope, *The Lives of Beetles* is packed with the latest scientific findings, presented in an accessible way. Individual chapters cover beetles' structure and function; evolution, diversity, classification, and distribution; communication, reproduction, and development; feeding habits; uses in medicine, science, and technology; and study and conservation. Each chapter concludes with nine stunningly illustrated profiles that highlight the lives of some of the world's most beautiful and interesting species. The book also features an up-to-date family classification, a glossary, and suggestions for further reading. We need beetles for the ecological services they provide, the technological innovations they inspire, and the scientific insights they reveal, so it is essential that we all get to know beetles better and strive to conserve their habitats. *The Lives of Beetles* is the perfect place to begin this journey of discovery and understanding.

Colouring Meaning Gill Philip, 2011-02-23 Primarily focused on idioms and other figurative phraseology, *Colouring Meaning* describes how the meanings of established phrases are enhanced, refocused and modified in everyday language use. Unlike many studies of creativity in language, this book-length survey addresses the matter at several levels, from the purely linguistic level of collocation, through its abstractions in colligation and semantic preference, to semantic prosody and connotation. This journey through both linguistic and cognitive levels involves the examination of habitual language and its exploitations, both mundane and colourful, explaining the phenomena observed in terms of current psycholinguistic research as well as corpus linguistics theory and analysis. The relationships between meaning in text and meaning in the mind are discussed at length and extensively illustrated with worked case studies to offer the reader a comprehensive overview of metaphorical and other secondary meanings as they emerge in real-world communicative situations.

Nelson's Navy in Fiction and Film Sue Parrill,2009-09-14 This book provides summaries and analyses of more than 250 novels and nearly 30 films and examines the extent to which they accurately reflect the history, mores and manners of the period--and the extent to which they reveal the ideas and attitudes of their authors and of the periods in which they were written. Particular emphasis is placed on the nature and importance of the war at sea for the British and on the role of famous naval officers such as Nelson, Pellew, Duncan, Smith and Cochrane in the defeat of Napoleon.

Making the Journey Leila Christenbury,2006 Making the Journey is a staple of secondary English methods courses and teacher libraries because it not only provides practical advice on what to do in the classroom and how to act, but also offers a realistic but optimistic sense of what it means to embrace the practice of good teaching. Now, trusted educator, writer, and researcher Leila Christenbury has returned with a remarkable new edition of her classic. The third edition of Making the Journey will be both refreshingly new and satisfyingly familiar to those who've come to rely on Christenbury's wisdom and uncommon common sense. Every chapter has been revised and updated with new examples, the latest research, and stories from today's classrooms. Even more important, Christenbury has devoted new sections to discussing instructional and political topics crucial to the contemporary teacher, including: supporting English language learners developing students' ability to write on demand meeting the challenge of high - stakes standardized testing balancing depth of coverage with breadth in standards - based curricular planning creating tests and other assessments that align with curricular goals and provide useful information for subsequent instruction engaging students' reading interests through nontraditional, real - world genres like graphic novels teaching writing and media literacy through digital - age innovations such as blogs and

WebQuests navigating the politics of school while remaining an activist professional With the latest, smartest strategies, techniques, and ideas as well as Leila Christenbury's trademark pragmatism and know - how, the third edition of Making the Journey will be an indispensable guide for anyone just starting their own journey into teaching or for anyone already on their way.
