**Understanding the Classical Music Profession** Dawn Elizabeth Bennett, 2008 Understanding the Classical Music Profession is an essential resource for educators, practitioners and researchers who seek to understand the careers of classically-trained musicians, and the extent to which professional practice is reflected within existing classical performance-based music education and training. Bennett maintains that a musician cannot be simply defined as a performer, but that a musician is someone who works within the profession of music in one or more specialist fields. The perception of a musician as a multi-skilled professional working within a portfolio career has significant implications for policy, funding, education and training, and for practitioners and students seeking to achieve sustainable careers.
