The Routledge Companion to Music Theory Pedagogy Leigh VanHandel, 2020-02-26 Today's music theory instructors face a changing environment, one where the traditional lecture format is in decline. The Routledge Companion to Music Theory Pedagogy addresses this change head-on, featuring battle-tested lesson plans alongside theoretical discussions of music theory curriculum and course design. With the modern student in mind, scholars are developing creative new approaches to teaching music theory, encouraging active student participation within contemporary contexts such as flipped classrooms, music industry programs, and popular music studies. This volume takes a unique approach to provide resources for both the conceptual and pragmatic sides of music theory pedagogy. Each section includes thematic anchor chapters that address key issues, accompanied by short topics chapters offering applied examples that instructors can readily adopt in their own teaching. In eight parts, leading pedagogues from across North America explore how to most effectively teach the core elements of the music theory curriculum: Fundamentals Rhythm and Meter Core Curriculum Aural Skills Post-Tonal Theory Form Popular Music Who, What, and How We Teach A broad musical repertoire demonstrates formal principles that transcend the Western canon, catering to a diverse student body with diverse musical goals. Reflecting growing interest in the field, and with an emphasis on easy implementation, The Routledge Companion to Music Theory Pedagogy presents strategies and challenges to illustrate and inspire, in a comprehensive resource for all teachers of music theory.

Piano Music by Black Women Composers Helen Walker-Hill, 1992-02-28 In recent years, considerable scholarly attention has been paid to women in music, and information on the music of a handful of black women composers, such as Florence Price and Mary Lou Williams, has been published. Determined search, however, is needed to locate what little data is available on most such composers. Proceeding from a desire to use music of black women composers in her piano performance and teaching, Helen Walker-Hill has dedicated herself to uncovering this material, utilizing secondary sources and numerous archives, conducting interviews with composers, and engaging in voluminous correspondence with individuals and institutions. The result is the most comprehensive catalog of music composed by African American women to date. The depth of detail required limiting the scope to solo and ensemble piano music. However, an introductory overview on the contributions of black women in music and biographical sketches on the fifty-four composers profiled in the catalog contain broader information. Over 300 piano works are listed, with detailed descriptive information on close to 200 works the author

was able to obtain and study, including sources and levels of difficulty. Appendixes list available published music, ensemble instrumentation, music for teaching, and music published before 1920. A selected bibliography and a selected discography are also provided. This biographical dictionary and descriptive catalog will be most directly useful to performers and teachers, but the breadth of information makes it valuable for research in music history, African American studies, and women's studies.

From Spirituals to Symphonies Helen Walker-Hill, 2007 Exploding the assumption that black women's only important musical contributions have been in folk, jazz, and pop Helen Walker-Hill's unique study provides a carefully researched examination of the history and scope of musical composition by African American women composers from the nineteenth and twentieth centuries. Focusing on the effect of race, gender, and class, *From Spirituals to Symphonies* notes the important role played by individual personalities and circumstances in shaping this underappreciated category of American art. The study also provides in-depth exploration of the backgrounds, experiences, and musical compositions of eight African American women including Margaret Bonds, Undine Smith Moore, and Julia Perry, who combined the techniques of Western art music with their own cultural traditions and individual gifts. Despite having gained national and international recognition during their lifetimes, the contributions of many of these women are today forgotten.
