

Chronicles From The Future

Edward E. Morris

Chronicles from the Future Paul Amadeus Dienach, 2016-03-21 In 1921, Paul Amadeus Dienach, a Swiss-Austrian teacher with fragile health, falls into a one-year-long coma. During this time, his consciousness slides into the future and enters the body of another man in 3906 A.D. When Dienach awakens from his coma, he finds himself back in 1922. Knowing that he doesn't have much time left, he writes a diary, recording whatever he could remember from his amazing experience: the mankind's history in the forthcoming centuries, from the nightmare of overpopulation and World Wars up until the world-changing globalisation, the radical new administration system, the colony on Mars and the next human evolutionary stage. Without any close friends and relatives to entrust, he doesn't say a word to anyone out of fear of being branded a lunatic. Before he dies, he hands his diary to his favourite student, George Papachatzis, later prominent Professor of Law and Rector of Panteion University of Greece. The diary circulates as hidden knowledge amongst high ranking masons in the lodges of Athens. In 1972, professor Papachatzis, despite an intense dispute, decides to publish Dienach's diary in Greek. Paul Dienach was not an author, poet, or professional writer. Rather, he was an ordinary man who kept a journal, never with the expectation that it would be published. This unique and controversial book, a universal legacy, is now carefully edited, translated and available to everyone. This is the history of our future! We deliver it to you.

The Future and the Past Delmer Brown, Ichiro Ishida, 2023-04-28 *The Future and the Past: A Translation and Study of the Gukanshō* takes readers deep into the intellectual and cultural landscape of 13th-century Japan, offering a detailed translation and analysis of the *Gukanshō*, a pivotal historical work written by the Buddhist priest Jien in 1219. Amid social upheaval and the looming conflict between the Imperial Court and the military government, Jien crafted a visionary interpretation of Japan's history, blending Buddhist doctrines of kalpic decline and Shinto principles of divine intervention. His work presents a unilinear course of historical change, shaped by unseen forces he called Principles, which pull Japan's trajectory alternately toward deterioration and revival. Rooted in belief in the sacredness of Japan's Imperial line and its divine origins, the *Gukanshō* is as much a theological reflection as it is a political roadmap, advocating for the cooperative governance of aristocratic and military leaders to secure a brighter future. This edition combines decades of meticulous scholarship to illuminate Jien's complex worldview and its profound implications for Japanese history and thought. Readers are invited to explore the interplay of religious belief, political power, and historical change as Jien sought to legitimize the Kujo house's role in leading Japan toward renewal. By weaving genealogical analysis, political advocacy, and spiritual insight, *The Future and the Past* offers a unique lens on how medieval Japanese society grappled with decline and envisioned pathways for recovery. This translation not only preserves the nuances of Jien's narrative but also contextualizes his ideas for modern audiences, shedding light on the enduring relevance of his vision of history. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1979.

Dreams, Nature, and Practices as Signs of the Future in the Middle Ages Klaus Herbers, Hans-Christian Lehner, 2022-06-13 A great number of historical examples show how desperate people sought to obtain a glimpse of the future or explain certain incidents retrospectively through signs that had occurred in advance. In that sense, signs are always considered a portent of future events. In different societies, and at different times, the written or unwritten rules regarding their interpretation varied, although there was perhaps a common understanding of these processes. This present volume collates essays from specialists in the field of prognostication in the European Middle Ages. Contributors are Klaus Herbers, Wolfram Brandes, Zhao Lu, Rolf Scheuermann, Thomas Krümpel, Bernardo Bertholin Kerr, Gaelle Bosseman, Julia Eva Wannenmacher (†), Matthias Kaup, Vincent Gossaert, Jürgen Gebhardt, Matthias Gebauer, Richard Landes.

Bede and the Future Peter Darby, Faith Wallis, 2016-04-15 Bede (c. 673-735) was Anglo-Saxon England's most prominent scholar, and his body of work is among the most important intellectual achievements of the entire Middle Ages. *Bede and the Future* brings together an international group of Bede scholars to examine a number of questions about Bede's attitude towards, and ideas about, the time to come. This encompasses the short-term future (Bede's own lifetime and the time soon after his death) and the end of time. Whilst recognising that these temporal perspectives may not be completely distinct, the volume shows how Bede's understanding of their relationship undoubtedly changed over the course of his life. Each chapter examines a distinct aspect of the subject, whilst at the same time complementing the other essays, resulting in a comprehensive and coherent volume. In so doing the volume asks (and answers) new questions about Bede and his ideas about the future, and will undoubtedly stimulate further research in this field.
