NOLLYWOOD'S PATH TO ASCENSION: lessons From Hollywood's Rise Oluwasegun Babatunde, 2023-08-31 The science is strong, but a test is only as good as the men carrying it out, was said by Valery Legasov in the Chernobyl Mini-series. The quote resonates with me, as do the words, Art pieces are as formidable as the quality of work, people, and resources drawn to bring them to life. Motion pictures are among the most radical art forms, and their role as sources of entertainment on both small and big screens speaks volumes. For more than a century, people have been making movies, and this trend will continue as long as people exist. In Nigeria's Nollywood, much has been accomplished, and much more is awaited. Therefore, the need to caution, educate, and take bold steps is greatly warranted. Nollywood's Path To Ascension (NPTA) aims to provide practical guidance and steps to reach the zenith.

Solve for Happy Mo Gawdat, 2017-03-21 In 2001 Mo Gawdat realized that despite his incredible success, he was desperately unhappy. A lifelong learner, he attacked the problem as an engineer would: examining all the provable facts and scrupulously applying logic. Eventually, his countless hours of research and science proved successful, and he discovered the equation for permanent happiness. Thirteen years later, Mo's algorithm would be put to the ultimate test. After the sudden death of his son, Ali, Mo and his family turned to his equation--and it saved them from despair. In dealing with horrible loss, Mo found his mission: he would share his equation with the world and help as many people as possible become happier. Mo questions some of the most fundamental aspects of our existence, shares the underlying reasons for suffering, and plots out a

step-by-step process for achieving lifelong happiness and enduring contentment. He shows us how to view life through a clear lens, teaching how to dispel the illusions that cloud our thinking, overcome the brain's blind spots, and embrace five ultimate truths.--
