Adapting Superman John Darowski, 2021-05-29 Almost immediately after his first appearance in comic books in June 1938, Superman began to be adapted to other media. The subsequent decades have brought even more adaptations of the Man of Steel, his friends, family, and enemies in film, television, comic strip, radio, novels, video games, and even a musical. The rapid adaptation of the Man of Steel occurred before the character and storyworld were fully developed on the comic book page, allowing the adaptations an unprecedented level of freedom and adaptability. The essays in this collection provide specific insight into the practice of adapting Superman from comic books to other media and cultural contexts through a variety of methods, including social, economic, and political contexts. Authors touch on subjects such as the different international receptions to the characters, the evolution of both Clark Kent's character and Superman's powers, the importance of the radio, how the adaptations interact with issues such as racism and Cold War paranoia, and the role of fan fiction in the franchise. By applying a wide range of critical approaches to adaption and Superman, this collection offers new insights into our popular entertainment and our cultural history.

Classic Comics Illustrators Tom Spurgeon, 2005 Edited by former Comics Journal editor Tom Spurgeon, the fifth volume in the acclaimed Comics Journal Library series celebrates five of the great all-time comic book artists. Frank Frazetta, Burne Hogarth, Russ Manning, Russ Heath, and Mark Schultz are the modern masters of illustration, here collected in their own words under one gorgeous, wrap-around cover. Together, these artists bridge almost 70 years of comics and fantasy art tied to tradition, craft and an emphasis on the human form. Frank Frazetta is unquestionably the preeminent fantasy and science fiction painter and illustrator of the second half of the 20th century. Burne Hogarth is well known as the visionary illustrator of the Sunday Tarzan series from 1939 to 1950, and the innovative educator who founded New York's school of visual art in 1947. Russ Heath's best work was on Westerns, especially Arizona Kid and Kid Colt, Outlaw, which stood out for their realistic artwork and details. Russ Manning created the fondly-remembered science fiction comic series Magnus, Robot Fighter, a superhero series that stood out because of Manning's excellent artwork. Mark Schultz (Cadillacs and Dinosaurs) is a man caught in the apex of his work's influence within the field and provides an altogether different perspective on great art's role in great comics, discussing his forays into Hollywood and more. Copiously illustrated.

How to Read Superhero Comics and Why Geoff Klock, 2002-09-06 Superhero comic books are traditionally thought to have two distinct periods, two major waves of creativity: the Golden Age and the Silver Age. In simple terms, the Golden Age was the birth of the superhero proper out of the pulp novel characters of the early 1930s, and was primarily associated with the DC Comics Group. Superman, Batman, Green Lantern, and Wonder Woman are the most famous creations of this period. In the early 1960s, Marvel Comics launched a completely new line of heroes, the primary figures of the Silver Age: the Fantastic Four, Spider-Man, the Incredible Hulk, the X-Men, the Avengers, Iron Man, and Daredevil. In this book, Geoff Klock presents a study of the Third Movement of superhero comic books. He avoids, at all costs, the temptation to refer to this movement as Postmodern, Deconstructionist, or something equally tedious. Analyzing the works of Frank Miller, Alan Moore,

Warren Ellis, and Grant Morrison among others, and taking his cue from Harold Bloom, Klock unearths the birth of self-consciousness in the superhero narrative and guides us through an intricate world of traditions, influences, nostalgia and innovations - a world where comic books do indeed become literature.
