**Teaching and Learning Chinese as a Foreign Language** Janet Zhiqun Xing, 2006-01-01 This book provides a research-based account of how to teach and learn Chinese as a foreign language. In addition to the discussion of relevant second/foreign language research, this volume gives detailed information on ways to develop a pedagogical model that is uniquely suited to teaching Chinese in five key areas: pronunciation (tones and pinyin), characters and words, sentences (when and why different sentence structures are used), discourse and pragmatic competence (coherence and genre), and cultural competence. Specially written for Chinese language teachers, student teachers and applied linguists, this is the first book written in English that systematically addresses all major aspects involved in teaching and learning Chinese as a foreign language. This book covers all the fundamental grammar elements in Chinese, explains their functions in discourse and communication, and explores different strategies for teaching and engaging students in learning the language.

**Performed Culture in Chinese Language Education** Guangyan Chen, 2020-06-22 Performed Culture in Chinese Language Education: A Culture-Based Approach for U.S. Collegiate Contexts elaborates on a cultural awareness-oriented, cultural performance-based, and cross-cultural communication-focused foreign language pedagogical paradigm—Performed Culture Approach — in the context of U.S. collegiate Chinese language education. Guangyan Chen draws on the data collected through questionnaires, comparisons between this pedagogy and mainstream pedagogical frameworks, and analyses of curricular development, lesson plans, and classroom discourses. Chen promotes the performed culture approach by delineating the theoretical framework of this pedagogy, reporting studies that empirically support cultural primacy in Chinese language education, and illustrating this pedagogy through analyses of a curricular structure, a lesson plan, and classroom discourses. Chen shows how this pedagogy addresses the gaps between the social need for global citizens and the insufficient integration of culture into foreign language education. The performed culture approach also addresses the overall drop in U.S. collegiate foreign language enrollment as this pedagogy connects foreign language programs to university missions and social needs.

**Classroom Research on Chinese as a Second Language** Fangyuan Yuan,Shuai Li,2019-04-24 This collection brings together a series of empirical studies on topics surrounding classrooms of Chinese as a second language (L2) by drawing on a range of theoretical frameworks, methodological strategies, and pedagogical perspectives. Over the past two decades, research on classroom-based second language acquisition (SLA) has emerged and expanded as one of the most important sub-domains in the general field of SLA. In Chinese SLA, however, scarce attention has been devoted to this line of research. With chapters written by scholars in the field of SLA—many of whom are experienced in classroom teaching, teacher education, or program administration in Chinese as a second language—this book helps disentangle the complicated relationships among linguistic targets, pedagogical conditions, assessment tools, learner individual differences, and teacher variables that exist in the so-called black-box classrooms of L2 Chinese.
