The Aesthetics of Self-Harm Zoe Alderton, 2018-05-11 The Aesthetics of Self-Harm presents a new approach to understanding parasuicidal behaviour, based upon an examination of online communities that promote performances of self-harm in the pursuit of an idealised beauty. The book considers how online communities provide a significant level of support for self-harmers and focuses on relevant case studies to establish a new model for the comprehension of the online supportive community. To do so, Alderton explores discussions of self-harm and disordered eating on social networks. She examines aesthetic trends that contextualise harmful behavior and help people to perform feelings of sadness and vulnerability online. Alderton argues that the traditional understanding of self-violence through medical discourse is important, but that it misses vital elements of human group activity and the motivating forces of visual imagery. Covering psychiatry and psychology, rhetoric and sociology, this book provides essential reading for psychologists, sociologists and anthropologists exploring group dynamics and ritual, and rhetoricians who are concerned with the communicative powers of images. It should also be of great interest to medical professionals dealing with self-harming patients.

Yes, Straight James asks the question: "Let's get substantial: are you f*****g gay or what?"

Feature Films, 1960-1969 Harris M. Lentz III,2009-12-29 This is a filmography, in two volumes, of not only all of the English-language movies made during the 1960s that had a U. S. theatrical release but major foreign films exhibited in the United States as well. The following information is provided for each film: year of release, nation of origin if other than the U.S., production or distribution company, black and white or color, running time, genre, production credits, cast and characters, and a brief synopsis. This turbulent decade is unusually interesting in the history of cinema. Those films released in the early part of the decade were similar to those of the 1950s, but as the years passed, the offerings changed in many ways.

Little Snowfall Lynn Crosbie,2015-02-14 Little Snowfall is a short story about a beautiful, young woman named Pixie, who suspects her new neighbour is James Franco. The problem is that her neighbour says his name is Edward and denies he is the famous actor/artist. Pixie has a monstrous crush on James Franco and is sure that Edward is lying about his true identity. After hearing him say his stay is only temporary, she gives herself two weeks — by Valentine's Day — to make him fall in love with her. Pixie quickly befriends and seduces the man who denies he's James Franco. But Pixie has secrets of her own that soon threaten to derail their budding relationship before it even has a chance to begin. What unfolds is a sweet, comical romance between two illusionists that culminates in a dramatic confrontation at a major art show on Valentine's Day. Written as a teaser for Lynn Crosbie's new novel about Kurt Cobain, Where Did You Sleep Last Night?, Little Snowfall is fun and romantic nod to the hugely popular fan fiction genre.
