Beowulf John D Niles,2008 More than one hundred glorious images, many of objects dating from the time of the story, enhance Seamus Heaney's masterful best-selling translation. Composed toward the end of the first millennium, Beowulf is the elegiac narrative of the Scandinavian hero who saves the Danes from the seemingly invincible monster Grendel and, later, from Grendel's mother. Drawn to its immense emotional credibility, Seamus Heaney gives the great epic convincing reality for the reader. But how to visualize the poet's story has always been a challenge for modern-day readers. In Beowulf: An Illustrated Edition, John D. Niles, a scholar of old English, brings Heaney's remarkable, best-selling translation to life. More than one hundred full-page illustrations -- Viking warships, chain mail, lyres, spearheads, even a reconstruction of the Great Hall -- make visible Beowulf's world and the elemental themes of his story: death, divine power, horror, heroism, disgrace, devotion, and fame. Now this mysterious world is transformed into one that only becomes more amazing after viewing its elegant goblets, dragon images, finely crafted gold jewelry, and the Danish landscape of its origins.

Shamanism Piers Vitebsky,2001 From the snowscapes of Siberia to the jungles of the Amazon, this book explores the role of the shaman as a healer mediating between the world of the living and the world of the spirits. 250 illustrations, many in color. 25 maps.

Scandinavian Museums and Cultural Diversity Katherine Goodnow,Haci Akman,2008-09-01 Museums face the task of

representing the similarities and differences that exist between groups, such as national identities and indigenous and minority voices, material and intangible heritage, and current status and past history. In order to achieve this aim, a complex and not always easily compatible set of interests have to be taken into account, from those of the museum itself, to those of its main audiences, sources of support, and the groups that are, or wish to be, represented. The approach taken by Scandinavian museums in response to this challenge highlights a very active concern for forms of cultural diversity and how they are interrelated. By bringing together debates and discussions of diversity, this volume offers insight into the Nordic region and its diverse peoples, from the Sámi and the Inuit to newer immigrants. It presents a set of historical reviews on the formation of national museums and emerging and contested perceptions of national identity. Furthering the general debate on representations of diversity and museums, it also offers museum curators possible ways forward.

Scandinavian Museums and Cultural Diversity Katherine J. Goodnow, Hacı Akman, 2008-09 Museums across the world are facing the task of capturing, reflecting and representing the notion of complex identities; personal, religious and ethnic. Narratives of national allegiances are being slowly replaced and supplemented by indigenous and minority voices providing a more complex understanding of diversity especially where intangible heritage is called on as a witness. The approach taken by Scandinavian museums in response to this challenge highlights the hybrid forms of cultural diversity and how they interrelate and work together. By bringing together debates and discussions of identity and diversity, this volume offers a particular insight into a broad geographic region and its diverse people, from the Sami and the limit to new migrants. It also presents a set of historical views on the formation of national museums and their contested perceptions of identity. Whilst developing new arguments and furthering an ongoing debate, it offers museum curators possible ways forward.--BOOK JACKET.
