Stuart Wilde

Infinite Self Stuart Wilde,1996-10-01 Author of The Trick to Money is Having Some! Stuart Wilde teaches us how to consolidate your inherent power and transcend all limitations by releasing yourself from the constraints of your ego. The 33 Energies of Man is an ancient teaching of energies to allow humans to transform into a high state of consciousness. Stuart has taken these complex teachings and created Infinite Self: 33 Steps to Reclaiming You Inner Power to allow his readers to raise their energy, gain awareness and set you free.

Summary of Stuart Wilde's Infinite Self Everest Media,2022-03-27T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The first step in the 33 Steps is called I Am God. You must accept the idea that the God Force is within you. When you perceive God as a force outside of you, you can't use its energy properly. Once you internalize the force, and it is not just a vague intellectual concept of the God within, then you can feel the God Force inside of you. #2 Your first power is to believe in God. This may seem egotistical, but you are not embracing the idea of God to talk about it or show off your Godlike qualities. Rather, you are silently internalizing the idea that the God Force is within you as a spiritual feeling. #3 To become free and activate the Infinite Self, you must abandon the dogma of the ego and adopt a more fluid and open approach. Otherwise, you are perpetually stuck in the agony of the ego. #4 You are the God Force within. You have the power to control your life. You must accept the infinity within you and begin to rely on the power of your intellect and perceptions of the ego's world.

Seven Secrets Jimmy Campbell,2013-07-31 In high school and technical college, the subject how to achieve your dreams was never an elective that was available. Maths, English, geography, and the like, were really the only options. Our parents told us to try hard, get good grades, and do our best so that we could get a good job. However, the secrets of success remained hidden and these were things that we had to seek and find out for ourselves. Seven Secrets is a powerful and to-the-point summary of everything you ever wanted to know that was never taught in school. How do you achieve a dream? How do you believe in yourself and become successful in life? How do you make your dreams a reality and get what you want? These are the questions that are directly answered in Seven Secrets. You are already smart enough; you deserve happiness and success. Seven Secrets will show you how to achieve your dreams.

Tracking Freedom Ken Eagle Feather,Kenneth Smith,1998 Metaphysical philosophies can expand awareness and evolve perception, but sometimes these avenues to greater consciousness actually limit awareness, as people are tempted to mistake the map for the territory. Aimed at those who wish to get the most out of their personal path, this text builds upon the teachings of Toltec seer don Juan Matus to demonstrate how metaphysical systems affect perception.
