One with the Force Krista Noble,2024-11-19 Explores how popular religions and philosophies have influenced and are manifested in the world of Star Wars. You have watched Luke Skywalker destroy the Death Star in A New Hope, seen Yoda merge with the Force in Return of the Jedi, and heard Rey contact the Jedi of the past in The Rise of Skywalker. But did you know that the Star Wars films contain parallels to religions and philosophies from around the world-from Christianity to Buddhism, and from Native American teachings to the Vedic knowledge of ancient India? In *One with the Force: 18 Universal Truths in Star Wars*, Krista Noble explores these parallels. She discusses the Force, collective consciousness, enlightenment, and immortality, revealing that the Star Wars films have a universal perspective on life. Readers will learn about the connections between these films and the Vedic tradition, Buddhism, Taoism, Sikhism, Judaism, Christianity, Islam, and Native American/First Nations beliefs. They will see that the philosophy of the Jedi doesn't only apply "in a galaxy far, far away"; it is also highly relevant to everyday living. Like Luke Skywalker, we should all search our feelings to discover the deepest truths of life, pursue our individual destinies, and strive to reach our full potential as human beings. In these ways, we can embody the wisdom of the Jedi.

Crop Circles Mary Carroll Nelson,2007 Since the late 1970s, crop circles have been appearing in grain fields all across the globe, but especially in Southern England. These large graphic designs are created through the contrast between the light-catching, flattened grain, swirled to the ground, and the darker grain left standing in the fields. The beauty of the art can be seen in its entirety from the air, and such space-filling, dynamic patterns are evidence that creative, intelligent CircleMakers are intentionally marking the Earth. But why they do it and who they are remain mysteries. In *Crop Circles*, Mary Nelson speculates on possible answers to these questions. Nelson takes the view that crop circles are a new art form. The record of civilization can be read through a study of art history. Today, CircleMakers are using land as a canvas. She asks, what do crop circles reveal about our own period? Are these huge artworks alerting us to increase our awareness, to follow an elevated path, more spiritual and less material, more in harmony and less adversarial, more of a circle than a box, so that humanity can at last fulfill its evolutionary destiny instead of destroying itself? In *Crop Circles* Nelson combines the

viewpoint of an art historian with that of artist and seeker to probe the connection between the crop formations and developments in contemporary thought. There is also a special hardcover edition available with a linen slipcase and accompanied by original artwork by Mary Carroll Nelson.
