Peak TV's Unapologetic Jewish Woman Samantha Pickette, 2022-12-19 *Peak TV's Unapologetic Jewish Woman: Exploring Jewish Female Representation in Contemporary Television Comedy* analyzes the ways in which contemporary American television—with its unprecedented choice, diversity, and authenticity—is establishing a new version of the Jewish woman and a new take on American Jewish female identity that challenges the stereotypes of Jewish femininity proliferated on television since its inception. Using case studies of streaming, cable, and network comedy series from the past decade written and created by Jewish women, including *Broad City*, *Crazy Ex-Girlfriend*, *The Marvelous Mrs. Maisel*, among others, this book illustrates how this new Jewish woman has been given voice and agency by the bevy of Jewish female showrunners interested in telling stories about Jewish women for wider audiences.

From Shtetl to Stardom Michael Renov, Vincent Brook, 2016-12-15 The influence of Jews in American entertainment from the early days of Hollywood to the present has proved an endlessly fascinating and controversial topic, for Jews and non-Jews alike. *From Shtetl to Stardom: Jews and Hollywood* takes an exciting and innovative approach to this rich and complex material. Exploring the subject from a scholarly perspective as well as up close and personal, the book combines historical and theoretical analysis by leading academics in the field with inside information from prominent entertainment professionals. Essays range from Vincent Brook's survey of the stubbornly persistent canard of Jewish industry control to Lawrence Baron and Joel Rosenberg's panel presentations on the recent brouhaha over Ben Urwand's book alleging collaboration between Hollywood and Hitler. Case studies by Howard Rodman and Joshua Louis Moss examine a key Coen brothers film, *A Serious Man* (Rodman), and Jill Soloway's groundbreaking television series, *Transparent* (Moss). Jeffrey Shandler and Shaina Hamermann train their respective lenses on popular satirical comedians of yesteryear (Allan Sherman) and those currently all the rage (Amy Schumer, Lena Dunham, and Sarah Silverman). David Isaacs relates his years of agony and hilarity in the television comedy writers' room, and interviews include in-depth discussions by Ross Melnick with Laemmle Theatres owner Greg Laemmle (relative of Universal Studios founder Carl Laemmle) and by Michael Renov with *Mad Men* creator Matthew Weiner. In all, *From Shtetl to Stardom* offers a uniquely multifaceted, multimediated, and up-to-the-minute account of the remarkable role Jews have played in American movie and TV culture.

Horrible White People Taylor Nygaard, Jorie Lagerwey, 2020-11-24 Examines the bleak television comedies that illustrate

the obsession of the white left with its own anxiety and suffering At the same time that right-wing political figures like Donald Trump were elected and reactionary socio-economic policies like Brexit were voted into law, representations of bleakly comic white fragility spread across television screens. American and British programming that featured the abjection of young, middle-class, liberal white people—such as *Broad City*, *Casual*, *You're the Worst*, *Catastrophe*, *Fleabag*, and *Transparent*—proliferated to wide popular acclaim in the 2010s. Taylor Nygaard and Jorie Lagerwey track how these shows of the white left, obsessed with its own anxiety and suffering, are complicit in the rise and maintenance of the far right—particularly in the mobilization, representation, and sustenance of structural white supremacy on television. Nygaard and Lagerwey examine a cycle of dark television comedies, the focus of which are “horrible white people,” by putting them in conversation with similar upmarket comedies from creators and casts of color like *Insecure*, *Atlanta*, *Dear White People*, and *Master of None*. Through their analysis, they demonstrate the ways these non-white-centric shows negotiate prestige TV's dominant aesthetics of whiteness and push back against the centering of white suffering in a time of cultural crisis. Through the lens of media analysis and feminist cultural studies, Nygaard and Lagerwey's book opens up new ways of looking at contemporary television consumption—and the political, cultural, and social repercussions of these “horrible white people” shows, both on- and off-screen.

Canadian Readings of Jewish History Daniel Maoz,Esti Mayer,2023-03-11 This book takes the reader through a genealogical embodied journey, explaining how our historical context, through various expressions of language, culture, knowledge, pedagogy, and power, has created and perpetuated oppression of marginalised identities throughout history. The volume is, in essence, a social justice initiative in that it shines a spotlight on elitist forms of knowledge, and their attached privileged protectors. As such, the reader will unavoidably reflect on their own pre-conceived meanings and culturally inherent notions while engaging with these pages, and in so doing open a third space where new forms of knowledge that may transcend time and space can evolve into endless possibilities. It is these possibilities of expanding the nuanced meanings of evolving knowledge, fluid lifestyles, and of a dynamic connection to humanity and God, which make this book contextually relevant in our post-modern landscape. It un-situates philosophies which have traditionally been unknowingly situated, and, in so doing, propels the reader to re-interpret discourse and recreate taken-for-granted “universal truths.”

The Struggle for the Holy Land William Hare,1995 In this sweeping, historical saga of the Middle East, William Hare

presents a narrative that begins with biblical times and traces the history of the region through World War II, the Holocaust, and the creation of Israel to the Persian Gulf War. Hare traces the roots of Zionism to the Jews' burning psychological need for identity on a soil of their own. Recognizing Palestinian Arabs' yearnings and aspirations as well, Hare examines the conflicts that have shaped this region for centuries and concludes with a look at the recent Middle East peace talks.

 called a reaction progress curve a
 potential energy diagram shows the
 change in potential energy of a system
 as reactants are converted into
 products the figure below shows basic
 potential energy

web key points potential energy is
 energy that has the potential to become
 another form of energy an object's
 potential energy depends on its
 physical properties and position in a
 system potential energy comes in many
 forms such as gravitational potential
 energy due to an object's mass and
 position in a gravitational field

 reactions** - Dec 26 2022

web aug 16 2019 1 answer sorted by 4
 the activation energy is not the average
 kinetic energy that the colliding
 particles need in order to successfully
 react instead it is the energy barrier
 between reactants and products often
 the energy required to cross the barrier
 comes from the kinetic energy of
 collisions
