**Eric Caren**

*House of Cards and Philosophy* J. Edward Hackett, 2015-12-14 Is Democracy overrated? Does power corrupt? Or do corrupt people seek power? Do corporate puppet masters pull politicians' strings? Why does Frank talk to the camera? Can politics deliver on the promise of justice? House of Cards depicts our worst fears about politics today. Love him or loathe him, Frank Underwood has charted an inimitable course through Washington politics. He and his cohorts depict the darkest dealings within the gleaming halls of our most revered political institutions. These 24 original essays examine key philosophical issues behind the critically-acclaimed series—questions of truth, justice, equality, opportunity, and privilege. The amoral machinations of Underwood, the ultimate anti-hero, serve as an ideal backdrop for a discussion of the political theories of philosophers as diverse as Plato, Aristotle, Nietzsche, Machiavelli, Hobbes, and Marx. From political and corporate ethics, race relations, and ruthless pragmatism to mass media collusion and sexual politics, these essays tackle a range of issues important not only to the series but to our understanding of society today.

**Politics and Politicians in Contemporary US Television** Betty Kaklamanidou, Margaret Tally, 2016-10-04 Bringing together well-established scholars of media, political science, sociology, and film to investigate the representation of Washington politics on U.S. television from the mid-2000s to the present, this volume offers stimulating perspectives on the status of representations of contemporary US politics, the role of government and the machinations and intrigue often associated with politicians and governmental institutions. The authors help to locate these representations both in the context of the history of earlier television shows that portrayed the political culture of Washington as well as within the current political culture transpiring both inside and outside of The Beltway. With close attention to issues of gender, race and class and offering studies from contemporary quality television, including popular programmes such as *The West Wing*, *Veep*, *House of Cards*, *The Americans*, *The Good Wife* and *Scandal*, the authors examine the ways in which televisual representations reveal changing attitudes towards Washington culture, shedding light on the role of the media in framing the public's changing perception of politics and politicians. Exploring the new era in which television finds itself, with new production practices and the possible emergence of a new 'political genre' emerging, *Politics and Politicians in Contemporary U.S. Television* also considers the 'humanizing' of political characters on television, asking what that representation of politicians as human beings says about the national political culture. A fascinating study that sits at the

intersection of politics and television, this book will appeal to scholars of popular culture, sociology, cultural and media studies.

**Unexceptional Politics** Emily Apter, 2018-02-06 A new vision of politics “below the radar” One way to grasp the nature of politics is to understand the key terms in which it is discussed. *Unexceptional Politics* develops a political vocabulary drawn from a wide range of media (political fiction, art, film, and TV), highlighting the scams, imbroglios, information trafficking, brinkmanship, and parliamentary procedures that obstruct and block progressive politics. The book reviews and renews modes of thinking about micropolitics that counter notions of the “state of exception” embedded in theories of the “political” from Thomas Hobbes to Carl Schmitt. Emily Apter develops a critical model of politics behind the scenes, a politics that operates outside the norms of classical political theory. She focuses on micropolitics, defined as small events, happening in series, that often pass unnoticed yet disturb and interfere with the institutional structures of capitalist parliamentary systems, even as they secure their reproduction and longevity. Apter’s experimental glossary is arranged under headings that look at the apparently incidental, immaterial, and increasingly virtual practices of politicking: “obstruction,” “obstinacy,” “psychopolitics,” “managed life,” “serial politics.” Such terms frame an argument for taking stock of the realization that we really do not know what politics is, where it begins and ends, or how its micro-events should be described.
