African American Political Thought Melvin L. Rogers,Jack Turner,2024-05-31 African American Political Thought offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life: democracy, race, violence, liberation, solidarity, and mass political action. Melvin L. Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries, developing their list with an expansive approach to political expression. The collected essays consider such figures as Martin Delany, Ida B. Wells, W. E. B. Du Bois, James Baldwin, Toni Morrison, and Audre Lorde, whose works are addressed by scholars such as Farah Jasmin Griffin, Robert Gooding-Williams, Michael Dawson, Nick Bromell, Neil Roberts, and Lawrie Balfour. While African American political thought is inextricable from the historical movement of American political thought, this volume stresses the individuality of Black thinkers, the transnational and diasporic consciousness, and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas. This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life. In doing so, African American Political Thought: A Collected History transforms how we understand the past and future of political thinking in the West.

Let America Be America Again Langston Hughes,Antonio Frasconi,2004-11-02 A newly-illustrated edition of the classic poem, used extensively by John Kerry in his Presidential campaign. World-renowned poet and master of prose Langston Hughes enlightened Americans nationwide when his poem Let America Be America Again appeared in 1936. Today, more than half a century later, this poem's insights into American society and its dream of social justice continue to resonate powerfully among readers. In celebration of the poem's inspiring message, artist Antonio Frasconi illustrated Hughes' poem with thirty-two woodcuts in an extraordinary limited-edition artist's book, adding a rich visual dimension to the poet's verses. Henry Louis Gates, Jr., noted scholar and W. E. B. Du Bois Professor of the Humanities at Harvard University, contributed a foreword. A popular edition of this work, Let America Be America Again brings their important collaboration to a wider audience, faithfully reproducing the intricacy and subtlety of Frasconi's prints. Each coupling of image and stanza conveys Hughes'and Frasconi'sdream of justice for all with compelling force. A call to fulfill this country's potential for greatness, Let America Be America Again will touch every American who reads its pages.

The Sum of Our Dreams Louis P. Celebrating Poetry Across the K-12 Curriculum Napoli, Mary, Day, Deanna, Ward, Barbara A., 2025-07-16 Poetry provides opportunities to explore the universal and common experiences that connect us as human beings. When teachers infuse poetry into their classroom, it can foster compassion, develop interdisciplinary connections, and support literacy instruction. However, not all teachers use poetry in their classroom either because they are not aware of the value of poetry or because they have not had positive experiences with poetry. Given the importance of sharing poetry with today's youth, educators must feel confident in evaluating well-written poetry and how to weave poetry from award-winning poets to support interdisciplinary connections. Celebrating Poetry Across the K-12 Curriculum aims to ensure that poetry for children is not neglected as part of the curriculum, and to help educators feel more confident in their understanding of children's poetry, its relevance to children's lives, and its importance to supporting pedagogical connections. Featuring interviews with well-known poets, this resource also showcases the latest pedagogical and scholarly research supporting the integration of poetry in the K-12 classroom. Covering topics such as science content, romanticism, and diversity recognition, this book is an excellent resource for educators, classroom teachers, literacy specialists, librarians, professionals, researchers, scholar, academicians, and more.

A Short Guide to Writing about Literature Sylvan Barnet, William E. Cain, 2000 Emphasizing writing as a process and incorporating new critical approaches to literature, *A Short Guide to Writing about Literature*, 8/e, provides accessible, step-by-step instruction for improving students' written work related to literature. Ideal as a supplement to any course where writing about literature or literary studies is emphasized.

Creating America Joyce Moser, Ann Watters, 2001-08 For Writing/Composition courses especially those with a focus on argument and/or research. This reader emphasizes the argumentative strategies students need to analyze and write arguments. At the same time, it helps students see that Americans have always defined themselves and maintained a sense of unity despite great diversity through ongoing public debate about what America means. Selections reflect colonial times to the present and include posters, photographs, advertisements, and court cases in addition to essays, poems, and stories.

American Lives, American Issues Robert S. Newman, 2003 Reflecting today's more personalized and openly contentious environment surrounding pluralism and diversity, this innovative anthology links autobiographical and argumentative writing in case-study fashion in order to explore the pros and cons of issues that arise in everyday life. Consists of two kinds of writings: essays about individual lives (autobiographies, human-interest stories) and argumentative or analytic essays (often arranged in terms of opposing viewpoints). Stresses the importance of individual experience and the connection of that vital experience to analysis, generalization and reasoned argument, and helps readers learn to develop and ultimately define their own sense of pluralistic culture today. Groups readings under personal narratives, American places, pluralism, gender, homosexuality, religion, and change in America. Begins each chapter with an autobiographical essay or a human interest story to help readers understand the play of ambiguity and complexity in actual experience. Presents an informal approach to the essentials of argumentative essays by providing a healthy interplay of well-articulated opposing viewpoints on a range of pluralistic and multicultural discussions, emphasizing specific conflicts in generalization and support, and encouraging readers to work out their own understanding of the validity of the respective arguments or analysis. For users who wish to hone their argumentative writing skills, or for general readers interested in a diverse compilation of essays on pluralism, diversity and multiculturalism.

Literature Robert DiYanni, 2001-07 This anthology offers a lively introduction to the study of fiction, poetry, and drama, and is appropriate for introduction to literature courses as well as literature-based composition courses. Known for its clear presentation of the formal elements of literary analysis, DiYanni's *Literature* effectively balances classical, modern, and contemporary works across the three major genres, blending well-known writers with a diverse gathering of newer, international figures. This literary breadth is supplemented by extensive coverage of writing about literature, making DiYanni an excellent resource for literature instructors who want a full-featured anthology.

Interpreting Educational Research Daniel R. Hittleman, Alan J. Simon, 2006 For courses in Research Methods in Education. *Interpreting Educational Research: An Introduction for Consumers of Research*, fourth edition, is designed for introductory, post-baccalaureate research courses in which elementary and early childhood education teachers, reading/literacy specialists, special education teachers, content area teachers at the middle and secondary school levels, administrators and curriculum specialists are prepared as consumers rather than as producers of educational research. It provides preservice and in-service teachers with basic knowledge and skills for reading, interpreting, and evaluating both quantitative and qualitative educational research, so that they can make program, curriculum, and instructional decisions based upon those research results. This text guides learners in activities based on current integrated language arts principles and practices for reading and writing content area discourse. It also guides readers to independence in the use of techniques for reading, interpreting, evaluating, and writing about education research.

Transforming Classroom Discourse Ernest Davis Morrell, 2001

A brief, paperback version of the best-selling *Literature: An Introduction to Reading and Writing*, this compact edition retains all of the outstanding features of the original text. In addition to carefully chosen literary selections, each chapter contains detailed information on and sample essays for writing about literature.
