On Becoming a Person Carl Ransom Rogers, 1961 Abstract: A psychotherapist's clinical dealings with personal counseling and interpersonal relationships, from a context of personal experience and learning, is reviewed in a collection of papers designed for professionals in many disciplines. Understanding of person-centered concepts such as self-actualization, individual growth, and personal goals, may lead to lessening of tensions in human relations. The therapeutic relationship facilitates the process of growth and change in a client. Characteristics of helping relationships are described. The therapist expresses his view of how a fully functioning person behaves. Research in client-centered psychotherapy is discussed. Psychotherapy has potential implications for education, interpersonal communication, family life, and personal creativity. Behavioral sciences should play a constructive role in personal development.

Social Work Brenda DuBois, Karla Krogsrud Miley, 2002 This introductory textbook distinguishes itself from others,

because it takes a discipline approach rather than a social problems approach to framing the foundations of social work knowledge, values, and skills. This is a revision of the very first text to fully incorporate the strengths or empowerment perspective. The text takes a strong generalist eco-systems approach, while integrating material from the CSWE education core: values and ethics, cultural diversity, social justice, social work practice, human behavior, populations at risk, and policy and services. The text details the roles of the social worker in the functions of consultation, resource management, and education, and presents an easy-to-understand paradigm that shows students how the partnership between practitioners and consumers takes place at all systems levels.

Infants & Toddlers Linda Douville-Watson, Terri Swim, 2008 *Infant and Toddlers: Curriculum and Teaching*, 6e is the well established reference that takes a child-centered approach for the childcare provider called conscious care giving. This important and well rounded approach encourages a sense of empowerment and focuses on the respectful, purposeful, and careful handling of children in a childcare setting. The book is reader friendly, realistic, and easily applicable to real life. The 6th edition is updated with the latest information including new references and quotes as well as new brain research relevant to the first 36 months of life. There are case studies included, and the book also addresses the specific practices related to special needs children and children of different cultures. There are many key childcare philosophies addressed including that of the child, the caregiver, and parent involvement. The book provides an emphasis on the child's growth and development, and helps the reader to discover how they can best and most effectively influence that development within the child. This book provides the best information regarding the skills necessary to provide high quality care for infants and toddlers in any setting.

Thinking Seriously about Youth Work, and how to Prepare People to Do it Council of Europe, 2017 If we consider the 50 states having ratified the European Cultural Convention of the Council of Europe or the member states of the European Union, the multiple and divergent nature of the realities, theories, concepts and strategies underlying the expression 'youth work' becomes evident. Across Europe, youth work takes place in circumstances presenting enormous differences with regard to opportunities, support, structures, recognition and realities, and how it performs reflects the social, cultural, political and economic context, and the value systems in which it is undertaken. By analysing theories and concepts of youth work and by providing insight from various perspectives and geographical and professional backgrounds, the authors hope to further contribute to finding common ground for - and thus assure the quality of - youth work in general. Presenting its purified and essential concept is not the objective here. The focus rather is on describing how to 'provide opportunities for all young people to shape their own futures', as Peter Lauritzen described the fundamental mission of youth work. The best way to do this remains an open question. This Youth Knowledge book tries to find some answers and strives to communicate the strengths, capacities and impact of youth work to those within the youth sector and those beyond, to those familiar with its

concepts and those new to this field, all the while sharing practices and insights and encouraging further reflection.

Art Therapy and Cancer Care Diane Waller, Caryl Sibbett, 2005-07 Inspired by the experiences of art therapists who have pioneered work with people with cancer, this text looks at the work in its institutional context, demonstrating the importance for the art therapy service of being understood, supported and valued at managerial level.

Invisible Students, Impossible Dreams Liz Atkins, 2009 reading for trainee teachers who hope to work with 14-19 learners and for professionals already involved in the implementation of the 14-19 agenda, whether as teacher practitioners, managers or policy makers. --Book Jacket.

Values-based Multinational Management Lee A. Tavis, Timothy M. Tavis, 2009 In this timely book, Lee Tavis and Timothy Tavis contend that the values dimension of the actions of multinational firms is becoming increasingly important, given the worldwide integration of economies and peoples. The digital revolution has broadened the reach of globalization and created an informed society that demands higher standards of behavior from the business enterprise; at the same time, multinational corporations have gained power often comparable to that of the nation state, and global society is in need of widely accepted, enduring social and ethical standards. Tavis and Tavis argue that multinational firms must embrace an ethically pro-active stance in their own long-term interests. A strategy of supporting universal human rights, often in partnership with NGOs, offers the greatest potential for success. Values-Based Multinational Management provides an agenda for practical action, with special reference to the United Nations Universal Declaration of Human Rights and the United Nations Global Compact. It informs and addresses the values concerns of multinational business managers. It presents its examples and analyses in a clear and concise manner and will be of use both to practitioners in the business community and students and scholars of business ethics. Values-Based Multinational Management employs a novel approach and a variety of perspectives that make it a very valuable addition to business ethics literature. This is excellent, helpful material that discusses an important way in which human rights may fit with globalization. --Timothy L. Fort, George Washington University More and more business executives understand that society increasingly judges corporate performance through a broad social lens that includes ideas of corporate social responsibility and business ethics. They are now ready to position their firms to meet these requirements. This volume is a thoughtful discussion of the ways in which the United Nations Global Compact can serve this purpose through a long-term human rights strategy and, importantly, how that strategy can be implemented within the firm. --Georg Kell, UN Global Compact This book underlines the fact that--despite the importance of institutional and social ethics--the individual ethics, if not virtue ethics, of corporate leaders remain central. Of highest importance is the authors' emphasis that no individuals--in whatever professional or personal role--can escape the fact that they are responsible for the outcome of their actions. It is to be hoped that this book revitalizes a facet of the debate on business ethics and corporate responsibility that has been neglected for too long. --Klaus M. Leisinger, Novartis Foundation for Sustainable Development
