100 Bedtime Stories for Triathletes Allan Pitman,2017-02-23 If youre a tired athlete looking for inspiration, look no further than this collection of short stories written by Alan Pitman. No matter what sport youre passionate about, youll find insights that will help you hone your focus and boost performance. Youll also be entertained by his many adventures. Although hes coached more than three hundred Ironman finishers over twenty five years, Pitman shares that at times, even hes found it hard to train. Thats why he recommends having a training partner, as its easier to let yourself down than one of your friends waiting out in the cold on a dark morning. As you read Pitmans stories, youll be challenged to never settle for anything other than excellence, to set lofty goals, and keep going when you want to give up. Youll also learn how to prevent injuries, take calculated risks, build self-esteem, embrace change, and learn from failure. Get motivated and get moving with 100 Bedtime Stories for Triathletes. I am both pleased and honoured to be able to endorse Allans book. Allan is an amazing athlete. Triathlete, Ironman multiple finisher of forty three races, an Ironman in Australia Legend and finisher of 17 Ironman World Championship races including four podium appearance. As a renowned and hugely respected Ironman Triathlon coach of many years standing his words of wisdom on every page are both profound and inspirational and a must read for all athletes especially Ironman Triathlon aspirants as well as past and continuing competitors. Title IX, Pat Summitt, and Tennessee's Trailblazers Mary Ellen Pethel,2022-10-18 To celebrate the fiftieth anniversary of the passage of Title IX legislation, Mary Ellen Pethel has written a who's who of Title IX proponents in Tennessee. The book consists of fifty profiles in biography, interview, and vignette format, introducing Tennessee women instrumental to the passage of the Educational Amendments of 1972 and to the success of women's athletic programs thereafter. Pethel celebrates the lives and careers of household names like Pat Summitt and Candace Parker, as well as equally important forerunners such as Ann Furrow and Teresa Phillips. Introductory and concluding material discusses education and sport prior to Title IX, the legislation itself, the early controversies and implementation of Title IX, and the future of equity in sport and education--

Thrive Richard Sutton,2022-12-15 We live in a world that demands perfection. Should we not meet established milestones or targets, not conform to the appropriate curve, or fail to live up to pre-established societal expectations, we invariably experience a sense of personal failure, worthlessness, and fears and anxiety about a tenuous future. Added to this is the struggle with financial pressures and widening gaps in inequality, fractured family units, chronic stress and mental health challenges, overlaid with the uncertainty and complexity of a rapidly changing world. Yet, in truth, it doesn't matter where we come from and what our historic circumstances and achievements might be. We are all capable of extraordinary lives and should not be bound by limitations, whether self-imposed or from external sources Resilience can help us to unlock our fullest potential; it is a consummate skill that can be developed and grown throughout our lives. This reality is echoed by the likes of Albert Einstein, Oprah Winfrey, Billy Jean King and Lucas Radebe, who all struggled on some level and overcame the constraints of their circumstances through resilience in various forms. In addition, many resilience 'lessons' and how these are applicable to everyday life are taken from a fusion of cutting-edge science and learnings from some of the most recognisable figures in world sport, including Usain Bolt, Michael Phelps, Michael Jordan and Martina Navratilova. Thrive is a rich source of unique and practical skills and tools that are easy to apply to help you develop and harness your resilience and to realise your fullest potential.

Jay Shetty Valuable lessons about the importance of following a different and unconventional path to power." Robert Greene At the very heart of all the success and failure I've been exposed to - both my own entrepreneurial journey and through the thousands of interviews I've conducted on my chart-topping podcast - are a set of principles that ensure excellence. These fundamental laws underpinned my meteoric rise, and they will fuel yours too, whether you want to build something great or become someone great. The laws are rooted in psychology and behavioral science, in my own experiences, and those of the world's most successful entrepreneurs, entertainers, artists, writers, and athletes, who I've interviewed on my podcast. These laws will stand the test of time and will help anyone master their life and unleash their potential, no matter the field. They are the secret sauce to success.

Peak Marc Bubbs,2019 There is a new revolution happening in sports as more and more athletes are basing their success on this game-changing combination: health, nutrition, training, recovery, and mindset. Unfortunately, the evidence-based techniques that the expert PhDs, academic institutions, and professional performance staffs follow can be in stark contrast to what many athletes actually practice. When combined with the noise of social media, old-school traditions, and bro-science, it can be difficult to separate fact from fiction. Peak is a groundbreaking book exploring the fundamentals of high performance (not the fads), the importance of consistency (not extreme effort), and the value of patience (not rapid transformation). Dr.

Marc Bubbs makes deep science easy to understand, and with information from leading experts who are influencing the top performers in sports on how to achieve world-class success, he lays out the record-breaking feats of athleticism and strategies that are rooted in this personalized approach. Dr. Bubbs expertly brings together the worlds of health, nutrition, and exercise and synthesizes the salient science into actionable guidance.
