The Reluctant Presenter Meghan Dotter, 2022-11-14 Have you ever left a meeting wishing you had said something different? Do you wonder why speaking seems to come so easily to others but not to you? Meghan Dotter has made a career in helping clients elevate their speaking and storytelling skills. In her book *The Reluctant Presenter: Forget Everything You Thought You Knew About Speaking*, Meghan reveals the science and art behind creating and giving a compelling presentation. She challenges some of the biggest assumptions you've been led to believe, including: Don't fake it 'til you make it; use confidence as a guide The success of your presentation has very little to do with PowerPoint The real potential of storytelling goes beyond entertaining Great speakers aren't naturally charismatic; they do the work to connect to audiences Through stories and research, Meghan shows you how to do the work (and how to avoid steps that aren't worth spending time on). In reading this book and trying some new approaches, you'll do more than transcend from being a reluctant presenter; you might even enjoy speaking up.

Quote the World Forevermore AYDI the Watcher , 2022-09-19 Why do I call myself AYDI the Watcher? That's a good question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDItheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and your minds are unlocked. The freer the minds, the better the world.

Stop Overthinking! Jane Kennedy, 2025-09-12 If you feel like your brain is always stuck in a never-ending spin cycle of worries, doubts, and what-ifs, then read on... So, you know those nights when you're just trying to unwind, maybe even drift off to sleep, but your brain has other plans? It replays conversations you had years ago, or suddenly, you're fixated on that minor mistake at work. Annoying, right? You're not alone in this mental circus. According to research, a mind-blowing 73% of

30-year-olds overthink like it's a full-time job. But wait, it's not just the younger crowd. Even 52% of the 45- to 55-year-old club are on this emotional roller coaster. Picture this: You're trying to enjoy a simple dinner with loved ones, but instead, you're mentally composing an email that doesn't even need to be sent until next week. Or how about when you're so caught up in the what-ifs that you miss out on the what-is happening right before you? This isn't just a pesky little problem; it's like having a stone in your shoe on a never-ending hike. Life's too short to waste it in what could be or what was. This isn't about thinking; it's a trap. And the thing about traps? They're meant to be escaped. This book, featuring 32 anti-overthinking activities, is your way out of the loop. Inside, you will discover: Why your brain loves drama: ever wonder why you can't let go of tiny problems? Get into the real deal of what's really going on up there, no fancy terms involved! How much is overthinking costing you – nope, it's not “just thinking,” it's messing with your mojo. You'll see how it's affecting your life and how to break free! How to toss out limiting beliefs – these little brain bugs can seriously mess up your groove, so you need to kick them out, and live the life you really want How to be your own biggest fan and why you should – knock out that self-doubt and take your rightful place in the spotlight Break the trauma chain: old hurts still haunting you? Find out how they're messing with your thoughts today, and how to finally cut them loose Chill out with mindfulness: forget what you've heard; you don't have to be a zen master to get this! Practical ways to build your go-to toolkit – get ready for some no-fuss ways to kick those bad habits and replace them with stuff that actually works! Yep, even that 2 A.M. worry fest! And much more! If you think you've tried a lot of self-help stuff before and it didn't work, this isn't just a self-help book. It's a friend with proven, research-backed methods to help you shut down that never-ending stream of worry. Overthinking has already caused you to lose countless hours, drained your emotional energy, and made you miss life's simple joys. So it's time to decide: you can let this moment pass and go back to your old ways, or you can take a step towards freeing yourself from the mental maze you're stuck in. But isn't it time to flip the script? Imagine a life where your mind is your ally, not your enemy. Picture yourself making decisions with clarity, enjoying social events without second-guessing every interaction, and going to bed with a sense of peace, not a racing mind. Why not start now? Jump into a life filled with real joy, a calm mind, and purpose – all without wasting time worrying. Scroll up and click Add to Cart right now.
