Francisco José Mateu Torres

8 Rules of Love Jay Shetty, 2023-01-31 The author of the #1 New York Times bestseller *Think Like a Monk* offers a revelatory guide to every stage of romance, drawing on ancient wisdom and new science. Nobody sits us down and teaches us how to love. So we're often thrown into relationships with nothing but romance movies and pop culture to help us muddle through. Until now. Instead of presenting love as an ethereal concept or a collection of clichés, Jay Shetty lays out specific, actionable steps to help you develop the skills to practice and nurture love better than ever before. He shares insights on how to win or lose together, how to define love, and why you don't break in a break-up. Inspired by Vedic wisdom and modern science, he tackles the entire relationship cycle, from first dates to moving in together to breaking up and starting over. And he shows us how to avoid falling for false promises and unfulfilling partners. By living Jay Shetty's eight rules, we can all love ourselves, our partner, and the world better than we ever thought possible.

Aesthetics and Narratives in Audiovisual Media Francisco José Mateu Torres, This book offers a series of contents that revolve around the different theoretical aspects of aesthetics and narratives in audiovisual media. Under this aspect, this publication works under a double aspect. On the one hand, it is a research and dissemination work, since it presents the concepts in an accessible way, allowing any reader interested in the audiovisual world to delve into the principles that govern the creation and analysis of the different audiovisual contents. But on the other hand, the book can serve as teaching material for audiovisual communication studies (script, sound, postproduction, etc.), as it delves into key issues for the training of future professionals in the audiovisual sector. All this, accompanied by a multitude of graphic examples. Based on these particularities, this book introduces contents ranging from the creation of a film script, delving into the structure and essential elements of audiovisual narrative, to the analysis of the sound aspects that enrich the audience's experience. The book also explores audiovisual editing and postproduction techniques, which are essential to give aesthetic and narrative coherence to the works; and a section is dedicated to storytelling in interactive digital media, highlighting the importance of the user's active participation in the construction of the story. Finally, transmedia narratives are addressed, understood as strategies that expand the narrative universe through multiple media and platforms, allowing an immersive and fragmented experience that involves the audience at different levels and contexts.
