Salinger's The Catcher in the Rye Holden Caulfield's story has resonated with generations of teenagers - and adults - ever since J.D. Salinger published The Catcher in the Rye (1951). In this American classic, Holden rails against what he sees as a world full of phonies. When he's expelled from prep school, he avoids going home at first. He stays at a hotel in Manhattan and has run-ins with nuns, a prostitute, and old acquaintances, each interaction highlighting his angst. He finds a moment of happiness when he watches his little sister ride the Central Park carousel, and he wishes he could save all the world's children from falling out of innocence into adulthood. He especially wishes that he could have saved his brother Allie from dying of leukemia. Holden ends up taking a time-out in a mental health facility. While still struggling, he realizes that by sharing his story, he has come to miss the people in it.

**Public Spaces, Social Relations and Well-being in East London** Nicholas T. Dines, Vicky Cattell, Sarah Curtis, 2006 Public spaces are a fundamental feature of where we live, representing sites of sociability and acting as a perceived measure of the quality of urban life. The rejuvenation of public spaces is also a key policy concern. This report draws on qualitative research in a multi-ethnic area of East London to consider the social value of spaces. As well as green spaces, the study looks at everyday spaces not usually highlighted in research or policy. It considers spaces along with place attachment, and explores the different types of social encounter spaces afford and analyses relationships between ethnicity and public space, and reflects upon the potential of spaces for fostering inter-ethnic understanding. It investigates links between different public spaces and well-being and discusses social and symbolic aspects of places and highlights a market which encapsulates many of the valued features of public space, shows how regeneration proposals raised 'public space consciousness' and

addresses policy implications. By providing a significant contribution to current debates around links between public spaces, social relations and well-being, the findings have particular implications for 'Cleaner, Safer, Greener', 'Community Cohesion', 'Sustainable Communities' and 'Choosing Health' policies. The study will be of interest to policy makers, practitioners and academics in public space, regeneration, community cohesion and community involvement, as well as those with an interest in well being.
