Facilitating Children's Learning in the EYFS Ann Langston,2013-10-16 This book offers in-depth insights into the revised Early Years Foundation Stage. It provides a broad exploration of the changes in the EYFS and considers how the revised EYFS framework creates both a context for learning and the basis of a curriculum for children from birth to five in early years settings. Focusing on practice, it considers a range of issues arising from the revised EYFS, including the rationale behind the new prime and specific areas of learning, and the new key themes of school readiness and engaging parents. Although the EYFS is a helpful framework for thinking about the relationship between the child, the environment, and learning and teaching at the most significant time in a young child's life, there is limited guidance on how the principles of the EYFS and the areas of learning and development can be put into practice. So if you're looking for further support and guidance on EYFS then this book is the book for you! Key features include: Up-to-date coverage and insight into the revised EYFS Delightful and detailed case studies that help link theory and practice Tips for effective practice Ways to develop teaching and learning appropriately and sensitively in tune with the needs of babies and young children This is essential reading for students who are entering the early years profession as well as for more experienced practitioners. Ann Langston is one of the most insightful and refreshing writers on early years in the country. In this wonderful book her experience and passion for the EYFS, and for learning and teaching that maximises the life chances of all children, shines powerfully through. This is a tour de force: offering scope and depth in an engaging and informing writing style peppered with fascinating real life vignettes. She begins with principles and ends with a vision for the future. A 'must have' for all those who are privileged to work with young children. Dr Jonathan Doherty, Head of Early Years & Childhood Studies, Faculty of Education, Manchester Metropolitan University, UK The book provides insightful discussions and examples of practice for working with children birth-five. Topical issues such as liaison with parents or school readiness give pertinent pointers for reflections. Dr Pat Beckley, Bishop Grosseteste University, UK

Creativity and Wellbeing in the Early Years Sonia Mainstone-Cotton,2023-04-20 This accessible and practical guide explores how we can enhance and embed creativity in the early years to support children's wellbeing. The book initially explores the work of Anna Craft, Ken Robinson, and Reggio Emilia to think about creativity with young children, before

considering what this means for wellbeing. Five core chapters focus on creative mediums – drawing, sculpting and painting; craft; music; dance and drama; and storytelling and poetry – and offer a range of practical ideas and activities to use and adapt. This book provides: A wide range of activities accompanied by examples of collaborative arts projects with children. Interviews with artists and practitioners who support children’s wellbeing using creative mediums. Recommendations for creative activities using accessible and everyday materials. Case studies showing the positive impact of creativity, from developing children’s cultural understanding to soothing and supporting children with sensory experiences. Suggestions for enthusing children with a love of words, enabling them to express their thoughts and feelings through creative language. Moments for reflection to encourage readers to pause and consider the impact of creativity on their own wellbeing as well as the wellbeing of children in their care. With ideas included that every practitioner can use in their setting, this book is an essential tool for early years professionals who want to build their confidence in using creativity in their practice whilst supporting children’s wellbeing.
