The Sociology of Healthcare Alan Clarke,2013-09-13 The Sociology of Healthcare, Second Edition explores the impact of current social changes on health, illness and healthcare, and provides an overview of the fundamental concerns in these areas. This new edition features a brand new chapter entitled End of Life which will help health and social care workers to respond with confidence to one of the most difficult and challenging areas of care. The End of Life chapter includes information on changing attitudes to death, theories of death and dying, and palliative care. All chapters have been thoroughly updated to address diversity issues such as gender, ethnicity and disability. In addition, expanded and updated chapters include Childhood and Adolescence and Health Inequalities. The text is further enhanced through the use of case studies that relate theory to professional practice, and discussion questions to aid understanding. Links to websites direct the reader to further information on health, social wellbeing and government policies. This book is essential reading for all students of healthcare including nursing, medicine, midwifery and health studies and for those studying healthcare as part of sociology, social care and social policy degrees. In an age when health policy follows an individualist model of personal responsibility this book by Alan Clarke demonstrates with a vast array of evidence, just how much there is such a thing as society. An excellent overall book.Dr. Stephen Cowden, Senior Lecturer in Social Work, Coventry University

Translocalities/Translocalidades Sonia E. Alvarez,Claudia de Lima Costa,Veronica Feliu,Rebecca Hester,Norma Klahn,Millie Thayer,2014-03-05 Translocalities/Translocalidades is a path-breaking collection of essays on Latin American, Caribbean, and United States-based Latina feminisms and their multiple translations and cross-pollinations. The contributors come from countries throughout the Américas and are based in diverse disciplines, including media studies, literature, Chicana/o studies, and political science. Together, they advocate a hemispheric politics based on the knowledge that today, many sorts of Latin/o-americanidades—Afro, queer, indigenous, feminist, and so on—are constructed through processes of translocation. Latinidad in the South, North and Caribbean middle of the Américas, is constituted out of the intersections of

the intensified cross-border, transcultural, and translocal flows that characterize contemporary transmigration throughout the hemisphere, from La Paz to Buenos Aires to Chicago and back again. Rather than immigrating and assimilating, many people in the Latin/a Américas increasingly move back and forth between localities, between historically situated and culturally specific, though increasingly porous, places, across multiple borders, and not just between nations. The contributors deem these multidirectional crossings and movements, and the positionalities engendered, translocalities/translocalidades. Contributors. Sonia E. Alvarez, Kiran Asher, Victoria (Vicky) M. Bañales, Marisa Belausteguigoitia Rius, Maylei Blackwell, Cruz C. Bueno, Pascha Bueno-Hansen, Mirangela Buggs, Teresa Carrillo, Claudia de Lima Costa, Isabel Espinal, Verónica Feliu, Macarena Gómez-Barris, Rebecca J. Health Promotion in the 21st Century Mary-Louise Fleming,Louise Baldwin,2020-08-13 How should we invest precious

health resources? At a time when chronic illness is increasing, inequality persists and climate change is starting to impact our health, how can health promotion improve health outcomes across the whole population? Health Promotion in the 21st Century offers a systematic introduction to the principles of health promotion today, and effective planning, implementation and evaluation. The authors review the global, regional and local issues that affect health in Australia, and show how social, economic, political and educational elements in society contribute to population health and wellbeing. Throughout, the authors emphasise that health promotion needs multiple solutions, and that health professionals should seek out strategic opportunities and partnerships. They consider the issues facing vulnerable groups - such as Aboriginal and Torres Strait Islander people, those with mental health issues, and the aged - and suggest a variety of innovative tools for working with particular populations. They also focus on strategies to ensure programs remain vibrant and sustainable in the longer term. With case studies and activities in each chapter, Health Promotion in the 21st Century is an essential resource for anyone seeking to build a career in health promotion.

Promoting Health Lyn Talbot, Glenda Verrinder, 2013-11-01 The must-have health promotion textbook now in a new updated edition. Increasing disparities in health globally mean the imperative for primary health care is greater than ever. Now in its fifth edition, Promoting Health: the primary health care approach remains an essential toolkit for health promotion action. Featuring updated policy and practice initiatives, this excellent health promotion textbook clearly explains the integral role of primary health care in supporting health promotion across all health care settings internationally. Using sound, evidence-based research, the authors of this excellent health title address the social, environmental, cultural and psychological determinants of health, conveying essential skills for using health promotion strategies within primary health care to foster wellbeing and prevent ill health. Moving through the health promotion continuum, Promoting Health: the primary health care approach identifies new challenges for health promotion students and health practitioners. The authors look at such issues as public policy, health promotion values, ecological sustainability, social marketing, community action and engagement, program development and evaluation and more. - Strengthened health promotion frameworks, with new examples from practice. - The Ottawa Charter for Health Promotion frames the practice-based chapters, illustrating its relevance and direct application to health promotion practice internationally. - Insight case studies illustrate health promotion initiatives, providing context for practice. - Each chapter concludes with critical thinking questions to prompt personal reflection and broader reading. - The Elsevier Evolve platform features ample online resources for lecturers and health promotion students, including an additional Q&A guide to in-text insights, an answer guide to in-text reflective questions; case studies and lecturer access to an answer guide to the online case studies.

Sustainability Andrew Griffiths, 2000 This study explores two of the major challenges faced by organizations in the 21st century :the successful management of human resources in a time of increasing staff turnover :and the growing pressure for

environmentally friendly operations. It offers a framework of principles and practices.
