The Atomic Bomb in Japanese Cinema Matthew Edwards, 2018-07-24 Seventy years after the nuclear attacks on Hiroshima and Nagasaki, Japan is still dealing with the effects of the bombings on the national psyche. From the Occupation Period to the present, Japanese cinema had offered a means of coming to terms with one of the most controversial events of the 20th century. From the monster movies *Gojira* (1954) and *Mothra* (1961) to experimental works like *Go Shibata's NN-891102* (1999), atomic bomb imagery features in all genres of Japanese film. This collection of new essays explores the cultural aftermath of the bombings and its expression in Japanese cinema. The contributors take on a number of complex issues, including the suffering of the survivors (*hibakusha*), the fear of future holocausts and the danger of nuclear warfare. Exclusive interviews with Go Shibata and critically acclaimed directors Roger Spottiswoode (*Hiroshima*) and Steven Okazaki (*White Light/Black Rain*) are included.

A Century of Popular Culture in Japan Douglas Slaymaker, 2000 Slaymaker (Japan studies, U. of Kentucky) is joined by several other American scholars of Japanese culture to explore the ways that popular culture has its context within history, and how in these globalized times it is difficult to determine exactly whose culture it is. Essays examine how World War II concepts have influenced modern Japanese culture, how Japanese popular culture is succeeding in the US, and how ancient Japanese myth and history affect one's understanding of the modern film *Mononokehime*. Creation and Creativity Caroline Vander Stichele,Alastair G. Hunter,2006 The idea of creation and creativity is among the most powerful and pervasive of metaphors bequeathed to the modern world by the scriptures of Judaism, Christianity and Islam. Twelve specialists here explore the original sources and contemporary manifestations of the theme in both high and low culture, from the Book of Genesis to James Joyce's *Ulysses*, *Children of Gebelawi* by the Egyptian novelist Naguib Mahfouz, and the Polish poetry of Wislawa Szymborska, and to popular films, such as *Bruce Almighty* and *Animatrix*, and animation films for children. Even current debates on genetics and ecology and the public exhibition of plastinated human bodies invoke these same themes, and make this volume a topical contribution to cultural studies today. Filling the Hole in the Nuclear Future Robert Jacobs,2010-04-19 From the dawn of the atomic age, art and popular culture have played an essential role interpreting nuclear issues to the public and investigating the implications of nuclear weapons to the future of human civilization. Political and social forces often seemed paralyzed in thinking beyond the advent of nuclear weapons and articulating a creative response to the dilemma posed by this apocalyptic technology. Art and popular culture are uniquely suited to grapple with the implications of the bomb and the disruptions in the continuity of traditional narratives about the human future endemic to the atomic age. *Filling the Hole in the Nuclear Future* explores the diversity of visions evoked in American and Japanese society by the mushroom cloud hanging over the future of humanity

during the last half of the twentieth century. It presents historical scholarship on art and popular culture alongside the work of artists responding to the bomb, as well as artists discussing their own work. From the effect of nuclear testing on sci-fi movies during the mid-fifties in both the U.S. and Japan, to the socially engaged visual discussion about power embodied in Japanese manga, *Filling the Hole in the Nuclear Future* takes readers into unexpected territory

Batman in the Fifties Don Cameron, Bill Finger, Edmond Hamilton, France Herron, 2021-09-07 The 1950s was a decade of change for the Dark Knight Detective, one that introduced new friends-and foes! These tales include the debuts of Deadshot, future member of the Suicide Squad; the original Batwoman, Kathy Kane; Mr. Zero, who would go on to greater fame as the nefarious Mr. Freeze; the original Red Hood; and the pesky interdimensional pixie known as Bat-Mite. This was also an era of great inventiveness, with tales that revealed how Batman's own father, Thomas Wayne, was once a Batman himself; how Batman became a Superman-like hero on the distant planet Zur-En-Arrh; the secrets of Batman's utility belt; and the introduction of an all-new Batmobile. Collects Batman #59, #62-63, #81, #92, #105, #113-114, #121-122, and #128; Detective Comics #156, #168, #185, #187, #215-216, #233, #235-236, #241, #244, #252, #267, and #269; and World's Finest Comics #81 and #89.
