**H Kauffman**

**Translatology, Translation and Interpretation - Toward a New Scientific Endeavor** Noury Bakrim, 2024-02-07 This book brings together scholarly contributions to question, model, and reshape translatology as the scientific discipline studying language translation. The chapters emphasize the hypothesis of a real domain of observability and objectivity through experimental and applied perspectives. The authors offer a balanced view of adequacy and coherence between the empirical and theoretical components of the book. The chapters include a good deal of individual language data from both source and target approaches, with a focus on typologically and culturally diverse spaces such as the African context. Domains of inquiry such as terminology and the cognitive dimension of the process exemplify the ability to create a dialogue between multidisciplinary intersections and translatological attempts of laws and generalizations.

Recent Challenges in Intelligent Information and Database Systems Tzung-Pei Hong, Krystian Wojtkiewicz, Rathachai Chawuthai, Pawel Sitek, 2021-04-05 This volume constitutes the refereed proceedings of the 13th Asian Conference on Intelligent Information and Database Systems, ACIIDS 2021, held in Phuket, Thailand, in April 2021. The total of 35 full papers accepted for publication in these proceedings were carefully reviewed and selected from 291 submissions. The papers are organized in the following topical sections: data mining and machine learning methods; advanced data mining techniques and applications; intelligent and contextual systems; natural language processing; network systems and applications; computational imaging and vision; decision support and control systems; data modelling and processing for Industry 4.0.

*Advances in Data Science and Management* Samarjeet Borah, Valentina Emilia Balas, Zdzislaw Polkowski, 2020-01-13 This book includes high-quality papers presented at the International Conference on Data Science and Management (ICDSM 2019), organised by the Gandhi Institute for Education and Technology, Bhubaneswar, from 22 to 23 February 2019. It features research in which data science is used to facilitate the decision-making process in various application areas, and also covers a wide range of learning methods and their applications in a number of learning problems. The empirical studies, theoretical analyses and comparisons to psychological phenomena described contribute to the development of products to meet market demands.

**The Future of Translation Technology** Chan Sin-wai, 2016-10-26 Technology has revolutionized the field of translation, bringing drastic changes to the way translation is studied and done. To an average user, technology is simply

about clicking buttons and storing data. What we need to do is to look beyond a system's interface to see what is at work and what should be done to make it work more efficiently. This book is both macroscopic and microscopic in approach: macroscopic as it adopts a holistic orientation when outlining the development of translation technology in the last forty years, organizing concepts in a coherent and logical way with a theoretical framework, and predicting what is to come in the years ahead; microscopic as it examines in detail the five stages of technology-oriented translation procedure and the strengths and weaknesses of the free and paid systems available to users. The Future of Translation Technology studies, among other issues: The Development of Translation Technology Major Concepts in Computer-aided Translation Functions in Computer-aided Translation Systems A Theoretical Framework for Computer-Aided Translation Studies The Future of Translation Technology This book is an essential read for scholars and researchers of translational studies and computational linguistics, and a guide to system users and professionals.

*Vietnamese Women at War* Sandra C. Taylor,1999 For as long as the Vietnamese people fought against foreign enemies, women were a vital part of that struggle. The victory over the French at Dien Bien Phu is said to have involved hundreds of thousands of women, and many of the names in Viet Cong unit rosters were female. These women were living out the ancient saying of their country, When war comes, even women have to fight.
