**Yvonne Jewkes, Travis Linnemann**

**Media and Crime in the U.S.** Yvonne Jewkes, Travis Linnemann, 2017-07-27 The rise of mobile and social media means that everyday crime news is now more immediate, more visual, and more democratically produced than ever. Offering new and innovative ways of understanding the relationship between media and crime, *Media and Crime in the U.S.* critically examines the influence of media coverage of crimes on culture and identity in the United States and across the globe. With comprehensive coverage of the theories, research, and key issues, acclaimed author Yvonne Jewkes and award-winning professor Travis Linnemann have come together to shed light on some of the most troubling questions surrounding media and crime today.

**Media and Crime** Yvonne Jewkes, 2004-08-17 'Media and Crime is a thought-provoking and scholarly work written in a very lively style. It will be of interest to readers of SCHOLAG whether or not they have some knowledge of criminological theories.' Jean McFadden, SCOLAG Journal 'Criminologists and a bewildering array of other voices have commented on the relationship between media and crime on many occasions over many decades. Those of us who have worked and taught in this area have often sensed the lack of an authoritative, systematic and up to date text to which one could refer with confidence. Yvonne Jewkes has now given us that book and we are in her debt. Jewkes is one of the few who knows the fields of both media studies and criminology equally well. She writes with confidence, clarity, insight and style. Media and Crime does not just cover the debate, it moves it forward. This is a striking and admirable achievement. This book will be widely read and widely welcomed by students and by Jewkes's academic peers' - Professor Richard Sparks, University of Edinburgh 'The book reviews key media and criminological debates against contemporary developments in the media and twenty-first century concerns about crime. More than that Media and Crime is intellectually provocative, lucid, astute and simply a good read' - Dr Maggie Wykes, University of Sheffield 'A thought-provoking critical analysis of how the mass media construct the issue of crime in the public realm. Clearly written and based on a wide-ranging review of research on crime and media it will be an invaluable source for students' - Professor Robert Reiner, London School of Economics and Political Science 'This book offers a vibrant and lucid guide to the constructions of crime in media culture, and the complex interactions between consumers and producers. Comprehensive and authoritatively written, Media and Crime should appear on all essential reading lists for students of criminology and media culture' - Paul Mason, Southampton Institute \* Why do only certain

criminal events become thrust into the public sphere with sufficient vigour to shape public fears of victimization? \* Why are some crimes sustained by sufficiently intense public outcry to become part of our cultural fabric, while other, almost identical incidents, fail to capture the collective imagination? \* Why do some very serious crimes cast a much longer shadow than others, and some offenders take on an iconic evilness while others fade into quiet obscurity? This book points a critical spotlight on media constructions of crime and social control, developing our understanding of the relationship between media and crime, and taking existing knowledge in new directions. Media and Crime is an accessible text with a strong pedagogic purpose, making it an ideal introduction to the study of crime and the mass media for undergraduate and postgraduate students. The author interrogates the most important literature in the field as well as moving the debates forward with new ideas and values. Substantive topics of current interest are covered, including: \* news reporting of crime \* media constructions of children and women as victims and offenders \* moral panics over paedophiles \* the relationship between the media and the police \* 'reality' crime shows \* surveillance and social control \* new media. Chapter overviews, key terms, study questions and suggestions for further reading map the key issues in this vital and topical area of debate. The book is essential reading for students in a wide range of academic fields including criminology, media studies, sociology, gender studies and psychology.

**#Crime** Rebecca M. Hayes, Kate Luther, 2018-08-24 As research continues to accumulate on the connections between media and crime, **#Crime** explores the impact of social media on the criminal legal system. It examines how media influences our perceptions of crime, the perpetration of crime, and the implementation of punishment, whilst emphasizing the significance of race, ethnicity, class, gender, and sexuality. It offers an accessible and in-depth examination of media and in each chapter there are case studies and examples from both legacy and new media, including discussions from Twitter that are being used to raise awareness of criminal legal issues. It also includes interviews with international scholars and practitioners from Australia, Belgium, and the United States to voice a range of global perspectives. This book speaks broadly to those interested in criminology, criminal justice, media and culture, sociology, and gender studies.

*Folklore and Social Media* Andrew Peck,Trevor J. Blank,2020-12-07 Ten years after the publication of the foundational edited collection *Folklore and the Internet*, Andrew Peck and Trevor J. Blank bring an essential update of scholarship to the study of digital folklore, *Folklore and Social Media*. A unique virtual, hybridized platform for human communication, social media is more dynamic, ubiquitous, and nuanced than the internet ever was by itself, and the majority of Americans use it to access and interact with digital source materials in more advanced and robust ways. This book features twelve chapters ranging in topics from legend transmission and fake news to case studies of memes, joke cycles, and Twitter hashtag campaigns and offers fresh insights on digital heritage and web archiving. The editors and contributors take both the “digital” and “folklore” elements seriously because social media fundamentally changes folk practices in new, though often invisible, ways. Social media platforms encourage hybrid performances that appear informal and ordinary while also offering significant space to obfuscate backstage behaviors through editing and retakes. The result is that expression online becomes increasingly reminiscent of traditional forms of face-to-face interaction, while also hiding its fundamental differences. *Folklore and Social Media* demonstrates various ways to refine methods and analyses in order to develop a better understanding of the informal and traditional dynamics that define an era of folklore and social media. It is an invaluable addition to the literature on digital folklore scholarship that will be of interest to students and scholars alike. Contributors: Sheila Bock, Peter M. Broadwell, Bill Ellis, Jeana Jorgensen, Liisi Laineste, John Laudun, Linda J. Lee, Lynne S. McNeill, Ryan M. Milner, Whitney Phillips, Vwani Roychowdhury, Timothy R. Media Literacy of the Oppressed Jad Melki,2024-10-14 This book offers an alternative approach to developing media literacy pedagogies for marginalized communities and people in postcolonial countries, especially in the Global South, tackling unexplored issues such as media literacy of war, terrorism, pandemics, infodemics, populism, colonialism, genocide, and intersectional feminism. With an emphasis on developing critical and emotive consciousness — or unveiling the oppressor within — the book provides a unique perspective that fits the needs of people at the margins and challenges mainstream media literacy approaches that are mainly designed for the center and the Global North. The book offers a framework for designing curricula at and with the margins through an emancipatory media literacy approach. This approach directs energy toward resistance and praxis, focuses on local priorities of the margins, contextualizes issues within a postcolonial historical moment, and concentrates on fighting oppression structures and social injustice. This book will be an important resource for scholars, educators, and students of media literacy, communication, cultural studies, critical

pedagogy, health communication, postcolonialism, Arab studies, feminism, and human rights.

Encyclopedia of Crime & Justice Joshua Dressler, 2002 This interdisciplinary resource covers legal, sociological, psychological, historical and economic aspects of crime and justice worldwide. Entries cover civil and criminal issues, from domestic violence to terrorism. Entries cite pertinent legal cases as well as publications for further information. Also includes a glossary of related terms.

Media, Crime, and Criminal Justice Ray Surette, 2007 Become a critical media consumer with MEDIA, CRIME, AND CRIMINAL JUSTICE! With the rise of media's role in reporting crime and using crime as entertainment, the importance of the interplay between the mass media news and entertainment systems and the criminal justice system may be greater today than ever before. This criminal justice text provides a bridge between relevant mass media research findings and criminal justice practice and corrects common misconceptions regarding the mass media's effects on crime and justice. An end-of-book glossary, chapter-by-chapter objectives, classroom discussion questions, and additional readings help you master the material and prepare for tests.

The Media and American Society, 1998

**Media Blight and the Dehumanizing of America** William K. Shrader, 1992-04-30 This impassioned critique of contemporary mass culture argues that the media, particularly television as the spearhead of electronic communications technology, contributes to the pervasive demoralization of the American public. By stimulating the public with an endless stream of enticing, essentially unattainable illusions, the media produce what William K. Shrader calls the experiential bind, a phenomenon rooted in the incongruity between the two juxtaposed realms of vicarious and firsthand experience. The internalized bind causes a chronically irritated self-ideal discrepancy, producing morbid guilt. This condition is familiar to mental health specialists, and is frequently invoked to explain the erratic and socially destructive behavior patterns of the mentally ill. Following a brief introduction, Chapter 1 describes the experiential bind and the media's imagery of unreality. This imagery is analyzed from two essential aspects: (1) the imagery of fantasy, which predominates in prime time network entertainment programming on television and in the majority of Hollywood movies; and (2) the imagery of doom, which predominates on television news programs shown in large cities across America every evening of the week. Chapter 2 is an elaboration of psychodynamic considerations, specifically, how both aspects of unreality affect such human characteristics as self-esteem, feelings of inadequacy, guilt, and narcissism. Chapter 3 continues with societal reverberations, including loss of community involvement and rampant consumerism. Chapter 4 turns to rehabilitation and prevention, drawing on Shrader's experience as a clinical psychologist and therapist-counselor. Chapter 5 is concerned with the emergence of a technological society and its contribution to materialism in America. The final chapter presents concluding thoughts, involving especially the author's theme that hedonistic materialism is America's Achilles Heel. Media Blight and the Dehumanizing of America is

suitable for the general reader, and will be particularly useful to scholars of social/behavioral and clinical psychology, and mass communications.

Community Policing Today Deborah A. Parsons,Janine Kremling,2020-09-20 Framing community policing not as a program, but as a transformation from traditional policing that involves sweeping changes in the way police view their role and relationships with the community, the authors demonstrate how law enforcement officers can partner with the community to help facilitate problem-solving of public safety issues.

**Media Wars** Danny Schechter,2003-04-09 The author critically examines media coverage since September 11th. He analyzes what has been covered and left out in news coverage of the terrorist attacks and their aftermath. The result is a scathing account of how the media has become a megaphone for the US military and its war on terror.

**American Culture and the Media** Anne Cassebaum,Rosemary Haskell,1997 [The book] is based on [the author's] belief that reading and writing skills are best taught together and in the context of high-interest subject matter. In section I, the mass media ... form a familiar and reassuring, yet rich and complex, subject for exploration and analysis. Section II, the rhetoric and brief handbook, gives advice and information for students to use as they work on their papers.... Fifty thematically unified high-interest readings in section I. -Pref.

Law, Media, and Culture Janis L. Judson,Donna M. Bertazzoni,2002 We are living in an era in which hate has become a national value. Hatred against the other is now an endemic and unforgiving aspect of our culture. Law, Media, and Culture examines how the law defines and reacts to hate, how the media reinforces it, and how hate is manifested in popular culture. This book also takes a fresh look at how the Internet has become a major tool to communicate hate, and how the development of attitudes toward hate are shaped by gender.
