Speaking With The Stars Bob Benson,2011-03-08 David Saint Hubbands (“This is Spinal Tap”) says it is a fine line between stupid and clever. This book is here to help you not cross that line but bridge the wider gap between yawn and smile or knowing nod. Presentations are written for the ear and so should the words we borrow from some of the best, brightest, funniest, and yes even most ordinary. Stars all! There are over 950 quotes you can and will choose to use. You will come back for ‘free refills’. These sound so good and so will you!

The Gospel in the Stars Joseph Augustus Seiss,1884 This fully illustrated volume will captivate the interest of those pursuing a study of astronomy and of Bible students seeking reinforcing truths concerning the unity of creation and revelation.

The Gospel in the Stars Joseph Seiss,2007-11-01 Did God arrange the stars in the sky to spell out his ultimate plans for the human race? Such is the conclusion of this curious book, first published in 1882 as an attempt to reconcile Christianity with the public fascination with astrology... a fascination that endures today. In this profusely illustrated volume, discover the connections between the signs of the Zodiac and Christian symbolism-Leo the lion represents Jesus, for instance; the Gemini twins signify both the relationship of Adam and Eve as well as God's relationship with his church. Building upon this language of the stars, the author demonstrates the truth of God's one plan and purpose of Redemption for fallen man. American Lutheran pastor JOSEPH AUGUST SEISS (1823-1904) was born in Maryland and served congregations in Virginia, Maryland, and Pennsylvania. In addition to numerous translations of hymns from the original German, he also authored numerous books, including *The Apocalypse*.

The Gospel in the Stars Joseph A. Seiss,2005-11-01 It was... the common and accepted doctrine of antiquity that the

constellations were divine in origin and sacred in character. They are woven in with all the old ethnic religions. Much as heathenism has perverted them to false worship, it has ever held to the belief that they are from God...-from Primeval Man Did God arrange the stars in the sky to spell out his ultimate plans for the human race? The Arabs and the Stars Paul Kunitzsch, 1989 The influence of Arabic-Islamic science on European astronomy is still evident in the number of terms and star names which derive from the Arabic. These articles examine what the Arabs - and other peoples of the Islamic world - knew about the fixed stars and the constellations, and the astrological traditions they associated with them. Professor Kunitzsch shows how the early folk astronomy of the Arabs was radically altered, without being swept away, by the discovery of ancient Greek, also Indian and Persian, sources; by far the most important of these was the *Almagest* of Ptolemy. This knowledge was then transmitted to medieval Europe, to Byzantium and, especially, to Spain, as the articles go on to describe, and was a vital factor in stimulating the development of scientific thought in the West.
