## Tadao Ando

**Tadao Ando: Houses** Philip Jodidio, 2013-10-01 The most complete and comprehensive collection of residential projects from the world's most internationally recognized and renowned architect. Though prolific in civic and commercial work, Tadao Ando first gained recognition for his residential projects, which were constructed solidly of concrete but ingeniously imbued with light and air. This exhaustive study is a complete catalog of all his residential work to date, including two new homes just finished in 2013. This volume features unseen and unpublished works presented through lavish and striking color photographs as well as detailed architectural drawings and plans of over thirty years of Ando's residential work, from the Sumiyoshi Row House in 1975 to the current houses for global design connoisseurs and art collectors.

**Minimum Space, Maximum Living M2** Philip Jodidio, 2006 A new look at a variety of small spaces from around the world, including residential, retail, commercial and other projects.

*The Very Small Home* Azby Brown, 2005 Building small can be a sign of higher ambitions, and those who take the time to peruse these pages will undoubtedly grow to appreciate that creating a small home can be an amazingly positive and creative act, one which can enhance life in surprising ways. *The Very Small Home* presents stunning design advances in Japan. Eighteen recent houses, from ultramodern to Japanese rustic, are explored in depth. Particular emphasis is given to what the author call the Big Idea—the overarching concept that does the most to make the house feel more spacious than it actually is. Among the Big Ideas introduced here are ingenious sources of natural light, well-thought-out atriums, snug but functional kitchens, unobtrusive partitions, and free-flowing circulation paths. An introduction by the author puts the house designs in the context of lifestyle trends, and highlights their shared characteristics. For each project, the intentions of the designers and occupants are examined. The result is a very human sensibility that runs through the book. A glimpse of the dreams and aspirations that these unique homes represent and that belies their apparent modesty. The second half of the book is devoted to illustrating the special features in the homes, from clever storage and kitchen designs, to ingenious skylights and nooks. As with his earlier *Small Spaces*, Azby Brown has given home owners, designers, and architects a fascinating new collection of thought-provoking ideas.
