*Caring for the M.E. Patient* Jodi Bassett, 2011 Essential information on the neurological disease M.E. sourced from the world's leading M.E. experts. Suitable for M.E. patients, their friends and family, partners, carers or doctors. The book includes a foreword by international M.E. expert Dr Byron Hyde. M.E. is a distinct neurological disease and is not at all the same thing as 'CFS.' Learning the facts is not time-consuming or complicated. Supporting your ill friend or family member or patient more fully by being aware of the basic facts of M.E. could make all the difference in the world to them. This book shows you how. Jodi Bassett is the founder of the international M.E. charity, HFME. Jodi contracted M.E. in 1995 when she was just 19. HFME contributors also aim to advocate for those non-M.E. patients who have been given the always meaningless 'CFS' diagnosis, and subsequently denied correct diagnosis and treatment.

The Broadview Anthology of British Literature: One-Volume Compact – Second Edition Joseph Black, Kate Flint, Isobel Grundy, Wendy Lee, Don LePan, Roy Liuzza, Jerome J. McGann, Anne Lake Prescott, Jason R. Rudy, Claire Waters, 2025-07-23 Guided by the latest scholarship, The Broadview Anthology of British Literature is acclaimed for its inclusiveness and its deep attention to literature's historical and cultural contexts. The Broadview is structured to meet the needs of today's students, with an unparalleled selection of illustrations and contextual materials, accessible and engaging introductions, and full explanatory annotations. The second edition of the anthology's One-Volume Compact Edition includes fresh selections from many authors—among them Phillis Wheatley, Mary Shelley, and Chimamanda Ngozi Adichie. Also new are omnibus sections addressing topics such as “The Supernatural and the Occult” in the early modern era, “Modernism and Modernity,” and “Poetry in the Late Twentieth and Twenty-First Centuries.” A substantial website component is included, and many longer works are also available from the publisher in separate volumes that may at the instructor's request be bundled together with this anthology.

*Victorian Poetry: An Anthology* Erik Gray, Veronica Alfano, 2025-04-23 The first new anthology of its kind in twenty years, Victorian Poetry provides generous selections of poetry both by well-known Victorian poets (Alfred Tennyson, Robert Browning, Christina Rossetti) and by writers who have received less critical attention (Constance Naden, Toru Dutt, Grace Aguilar). Detailed annotations, substantial biographies, and an introduction outlining major literary and historical trends of the Victorian period ensure that the anthology will be useful both for specialists and for students encountering these poems

for the first time. A companion website features additional poetry, selections of critical prose, and four appendices that group together poems related by genre, geography, or subject.

*Figures of the Imagination* Roger Hansford, 2017-03-16 This new study of the intersection of romance novels with vocal music records a society on the cusp of modernisation, with a printing industry emerging to serve people's growing appetites for entertainment amidst their changing views of religion and the occult. No mere diversion, fiction was integral to musical culture and together both art forms reveal key intellectual currents that circulated in the early nineteenth-century British home and were shared by many consumers. Roger Hansford explores relationships between music produced in the early 1800s for domestic consumption and the fictional genre of romance, offering a new view of romanticism in British print culture. He surveys romance novels by Ann Radcliffe, Matthew Lewis, Sir Walter Scott, James Hogg, Edward Bulwer and Charles Kingsley in the period 1790-1850, interrogating the ways that music served to create mood and atmosphere, enlivened social scenes and contributed to plot developments. He explores the connections between musical scenes in romance fiction and the domestic song literature, treating both types of source and their intersection as examples of material culture. Hansford's intersectional reading revolves around a series of imaginative figures - including the minstrel, fairies, mermaids, ghosts, and witches, and Christians engaged both in virtue and vice - the identities of which remained consistent as influence passed between the art forms. While romance authors quoted song lyrics and included musical descriptions and characters, their novels recorded and modelled the performance of songs by the middle and upper classes, influencing the work of composers and the actions of performers who read romance fiction.

*The Nurse in Popular Media* Marcus K. Harmes, Barbara Harmes, Meredith A. Harmes, 2021-11-01 The image of the nurse is ubiquitous, both in life and in popular media. One of the earliest instances of nursing and media intersecting is the Edison phonographic recording of Florence Nightingale's voice in 1890. Since then, a parade of nurses, good, bad or otherwise, has appeared on both cinema and television screens. How do we interpret the many different types of nurses--real and fictional, lifelike and distorted, sexual and forbidding--who are so visible in the public consciousness? This book is a comprehensive collection of unique insights from scholars across the Western world. Essays explore a diversity of nursing types that traverse popular characterizations of nurses from various time periods. The shifting roles of nurses are explored across media, including picture postcards, film, television, journalism and the collection and preservation of uniforms and memorabilia.
