

The Secret Government Book

Kathryn S. Olmsted

The Secret Government Ismael Perez, 2007-06-01 In his shocking book, *The Secret Government*, author Ismael Perez exposes the existence and purpose of a secret society which has been in existence since pre-Biblical times. Perez uncovers a secret government, an underground society of the world's most influential leaders, working together to form one government. The society, known by many as The Secret Government, includes world leaders, politicians, religious organizations, corporations, and some of the most influential families in history. Its purpose is to mold world events, using calamities, assassinations, diseases, terrorism, and political elections, in their quest for world domination and control. They have been the power behind most of the world's empires and institutions and have maintained their stronghold over the earth through secrecy, conspiracy, manipulation, division and wars. Taking the reader through history, Ismael Perez exposes the workings of this dark, hidden hand society as they attempt to bring all nations under their control. From the days of Adam and Eve, their bloodline has evolved and is currently behind the economic, political, and social corruption facing the world today. The Secret Government reveals the real reasons behind the 9-11 attacks on the World Trade Center and the assassinations of presidents, as well as their method of economic dominance through control of the world's banking system. From the highest echelons of world organizations, Perez provides proof that this dark brotherhood exists in the United Nations, the pharmaceutical companies, in organized religion, as well as the political arena. Years of research performed by Perez and other truth seekers bring these undeniable truths to light. It is time to familiarize ourselves with the meaning of the great awakening in relationship to the declining power of the dark forces. The great awakening has long been prophesied, and its taking place for many people who are becoming aware. The disclosure of the oppressive forces will be a great step in the awakening process, states Perez. Through *The Secret Government*, he shows us how we can use this information to change our future and prepare for the final conflict between Good and Evil, only then can the full restoration of the earth take place and we can begin the age of light marked by brotherhood, peace, justice, and freedom. *The Secret Government* is the first book written by Ismael Perez, and is based on extensive study of the Bible, as well as many political, historical, economic, and social events and documents throughout history. Perez is currently researching his next book, *Our Cosmic (Divine) Beginning*.

The Secret World Government Or "The Hidden Hand" Count Cherep-Spiridovich, 2000 This book rants against

Freemasonry, Satan, international banks, Napoleon and more. It makes a series of unsubstantiated claims against Jews and possibly substantiated ones against the Rothschilds of his time. If one can put the authors personal biases aside, there remains some good historical information about government, religion, world power and money. The publishers do not agree with the authors biased opinions, but wish to make the remaining facts available to those interested. Conspiracy buffs will enjoy it immensely. The book, in its entirety, should not be taken at face value the truth that exists within it must be carefully extracted.

Challenging the Secret Government Kathryn S. Olmsted, 2000-11-09 Just four months after Richard Nixon's resignation, New York Times reporter Seymour Hersh unearthed a new case of government abuse of power: the CIA had launched a domestic spying program of Orwellian proportions against American dissidents during the Vietnam War. The country's best investigative journalists and members of Congress quickly mobilized to probe a scandal that seemed certain to rock the foundations of this secret government. Subsequent investigations disclosed that the CIA had plotted to kill foreign leaders and that the FBI had harassed civil rights and student groups. Some called the scandal 'son of Watergate.' Many observers predicted that the investigations would lead to far-reaching changes in the intelligence agencies. Yet, as Kathryn Olmsted shows, neither the media nor Congress pressed for reforms. For all of its post-Watergate zeal, the press hesitated to break its long tradition of deference in national security coverage. Congress, too, was unwilling to challenge the executive branch in national security matters. Reports of the demise of the executive branch were greatly exaggerated, and the result of the 'year of intelligence' was a return to the status quo. American History/Journalism
