The Law of Life and Death Elizabeth Price Foley, 2011-08-01 Are you alive? Most people believe that some law defines our status as living (or not) for all purposes. But Foley shows that “not being dead” isn’t necessarily the same as being alive, in the eyes of the law. The need for more organ transplants and conservation of health care resources is exerting pressure to expand the legal definition of death.

Life, Death, and Consciousness in the Long Nineteenth Century Lucy Cogan, Michelle O'Connell, 2022-11-07 This book explores how the writers, poets, thinkers, historians, scientists, dilettantes and frauds of the long-nineteenth century addressed the “limit cases” regarding human existence that medicine continuously uncovered as it stretched the boundaries of knowledge. These cases cast troubling and distorted shadows on the culture, throwing into relief the values, vested interests, and power relations regarding the construction of embodied life and consciousness that underpinned the understanding of what it was to be alive in the long nineteenth century. Ranging over a period from the mid-eighteenth century through to the first decade of the twentieth century—an era that has been called the ‘Age of Science’—the essays collected here consider the cultural ripple effects of those previously unimaginable revolutions in science and medicine on humanity’s understanding of being.

Life After Life - Lifting the Veil on Death Rajendra Kher, 2019-04-20 Two great truths govern human existence: impermanence is the law of the Universe and therefore it is inevitable, but the jeewatma (soul) is permanent and lives forever. When one views human existence from the perspective of this knowledge, then the only certitude is that there is no death. With the materialization of the Universe the wheel of time was set in motion, imprinting preordained impermanence. Yet, despite the world’s impermanence, Man is offered the opportunity of acquiring knowledge and achieving spiritual growth within his lifespan. The cosmic soul momentarily adopts a human body to experience advancement in human form. But when the jeewatma departs the physical body from one of the five koshas (sheaths), it is released from this confinement and bondage into the joyful revelation of its true nature. The soul experiences divine love and achieves a state of timelessness. The demise of the human body thus becomes the moment for joyful fulfillment - when the jeewatma achieves ultimate growth and eternal beauty. Though the human form and external body decays, the jeewatma or the subtle body/soul, remains intact in its true and original form. Litterateur Rajendra Kher has spent long years studying the subject of death. He

has researched both ancient and modern references, as well as the Vedas, Upanishads, Bhagavad-Gita, Srimad Bhagvatam and various mythological literature in his attempt to unravel and comprehend death and 'life after life'. He has also analyzed the personal experiences of rishis, scholars, masters and yogis; adding his findings to the book to make it comprehensive. The gift contained in these pages is the lifting of the veil on death. In so doing, it frees each of us from unknown fears and dread about death and dying, enabling us to experience instead, true happiness and the grace of living.

Tomb Or Womb Gaj Tomas, 2011-10 Seminar paper from the year 2011 in the subject American Studies - Literature, grade: A, University of Graz, language: English, abstract: There is a certain clever rhetoric from the buried protagonist in the introduction —The Premature Burial||, Edgar Allan Poe's tale: —The boundaries which divide Life from Death, are at best shadowy and vague. Who shall say where the one ends, and the other begins?— (Poe 322), as he finds himself —buried|| in what he believes to be a coffin, as the story starts to intrigue us with one of the most terrifying and arguably uncanny experiences - live burial. The narrator is obsessed, a walking —dead man||, who eventually saves himself from the terrifying experience and exaggerated fear, but not from the uncanny feeling. It is as much dreadful as when we as readers perceive the buried-alive Lady Madeline Usher breaking the vault steel door of her coffin, uttering eerie sounds and appearing bloody at her brother Roderick's door in Poe's even more gruesome tale, —The Fall of the House of Usher||. The protagonists too are quite different, as are the representations of the motive of live burial in both stories - one hand we deal with, as this essay will try and prove, an evident incestuous relationship and perhaps Roderick's certain repressed wishes, and on the other hand the exaggerated, almost satiric general fear of a seemingly cataleptic state and death.
