The Strategic Relationship between Australia, the USA and China Dr. John Chuol Muon (Ph.D.), 2022-08-25 Research Paper (postgraduate) from the year 2020 in the subject Politics - Topic: International relations, grade: A, Flinders University, course: International Relations, language: English, abstract: This paper will examine Australia's Strategic relations to the USA, Australia's Strategic relations to China, as well as the Strategic relations of the USA and China. Australia's security, economic and political ties with the United States are fundamental to Australia's future. The previous government significantly intensified Australia's relationship with the United States, and it is now in the best shape it has ever been in. In this regard, the smoothness with which the US alliance has transferred to the Rudd Government, is outstanding to the strength of the alliance that John Howard had recognized with the United States of America. This is a permanent legacy that will help Australia and hopefully the government in greater strategic relationships. In the past eleven and half years, both defence and economic ties were improved, with the Australia-United States treaty of Defence Trade Co-operation and United States-Australia free trade agreement correspondingly. Therefore, the Australia-US relationship should only strengthen in the next ten years built on shared values, interest, mutual respect and similar outlooks on global affairs. In this regard, I would argue that Australia at the moment is more dependent on China for its growing economy but initiatives such as the annual bilateral strategic dialogue between both Countries which the previous government initiated last year is an important step towards developing closer security links in the future. I am also confident that Australia escalating economic relationships with China will coincide with the greatest dialogue on security matters, which should reflect shared mutual interests and values. On the other hand, the United States have been building the security umbrella in Asia-Pacific after World War II, from Japan and South Korea in the North, to Philippine, Thailand, Australia and New Zealand in the South to protect its security and interests in Asia-Pacific from communist threats like communist China.

The Future of the United States-Australia Alliance Scott McDonald, Andrew Tan, 2020-12-15 The United States-Australia alliance has been an important component of the US-led system of alliances that has underpinned regional security in the Indo-Pacific since 1945. However, recent geostrategic developments, in particular the rise of the People's Republic of China, have posed significant challenges to this US-led regional order. In turn, the growing strategic competition between these two great powers has generated challenges to the longstanding US-Australia alliance. Both the US and Australia are

confronting a changing strategic environment, and, as a result, the alliance needs to respond to the challenges that they face. The US needs to understand the challenges and risks to this vital relationship, which is growing in importance, and take steps to manage it. On its part, Australia must clearly identify its core common interests with the US and start exploring what more it needs to do to attain its stated policy preferences. This book consists of chapters exploring US and Australian perspectives of the Indo-Pacific, the evolution of Australia-US strategic and defence cooperation, and the future of the relationship. Written by a joint US-Australia team, the volume is aimed at academics, analysts, students, and the security and business communities.

Australia's Relations with China David Fitzsimmons, 2022-09-08 Drawing on a wealth of interviews with more than fifty key stakeholders from Australia and China, including five former Australian Prime Ministers, Fitzsimmons presents a history and analysis of Australian-Chinese relations since 1972. Fitzsimmons systematically examines how Canberra formulates and implements Australia's China policy, and how PMs and key influencers have made that policy over the last fifty years. Next, it analyses the style, manner and effectiveness of Australian Prime Ministers and other key foreign-policy makers in making Australian policy on China. Next, it charts how Australian policy on China has changed over different political periods. It also highlights Australian policy to China as a global case study for other countries who are closely examining and learning lessons from how one Asia-Pacific middle-power has dealt with the Chinese colossus. An essential guide for students of Australia's international relations, as well as for scholars of international relations more broadly.

China's Bilateral Relations And Order Transition In The Indo-Pacific Kai He, Feng Liu, 2025-03-17 This edited volume undertakes a systematic exploration of China's multifaceted interactions with five pivotal players situated in the Indo-Pacific: the United States, Japan, India, Australia, and ASEAN. By delving into both the theoretical underpinnings of state-to-state relationships and the empirical nuances of China's strategic engagements with these five critical actors, this book casts a clarifying light on the complexity of China's bilateral ties within the region. The strategic rivalry between the United States and China has emerged as a defining feature of international politics in the Indo-Pacific region. How China engages with the U.S. and other significant stakeholders in the region will intricately shape the trajectory and character of an impending transition in the international order, either through peaceful or confrontational means in the future. Five key bilateral relationships are examined from dual perspectives, capturing insights from scholars hailing from both within China and beyond its borders. This comprehensive initiative delves into the different viewpoints held by Chinese academics and their international counterparts regarding the very same bilateral relationship to develop a deeper understanding of the dynamics at play. This book will captivate the attention of scholars and policy analysts alike, fascinated by the dynamics of the US-China competition and the broader realm of geopolitics.

On the Horizon Reja Younis, 2021-08-15 The Nuclear Scholars Initiative is a signature program run by the Project on

Nuclear Issues (PONI) at the Center for Strategic and International Studies (CSIS)—to engage emerging nuclear experts in thoughtful and informed debate over how to best address the nuclear community’s most pressing problems. The papers included in this volume comprise research from participants in the 2020 Nuclear Scholars Initiative. These papers explore a variety of topics such as the future of arms-control treaties, the role of artificial intelligence and cyber resilience in nuclear security, and the role of regional dynamics in nuclear security.

Indonesia and the Indo-Pacific Senia Febrica, 2023-07-19 This book examines Indonesia’s strategies and policies to influence regional cooperation in the Indo-Pacific, focusing especially on Indonesia’s efforts to be the maritime fulcrum in the Indo-Pacific during President Joko Widodo’s (Jokowi) administration from 2014 until the present. Highlighting the importance of Indonesia as the largest country in Southeast Asia and as a founder member of ASEAN, the book, based on extensive original research, provides key insights into Indonesia’s maritime policy decision-making since 2014. It discusses the domestic political context in which foreign policy decisions are made, provides an explanation for Indonesia’s efforts to project its vision of Indo-Pacific cooperation at the ASEAN level and beyond, and demonstrates how Indonesia strives to maintain a delicate balance in its interactions with major powers in the region, including the United States, China, and Japan.

America's Australia, Australia's America Joseph M. Siracusa, Yeong-Han Cheong, 1997

Australia Bruce Vaughn, 2015 This report gives an overview of the relationship between the Commonwealth of Australia and the United States including the close alliance under the ANZUS treaty. The report includes information about the structure of the Australian government, political and domestic issues, economics, defense policies and security ties,

counterterrorism, environmentalism, affairs in Asia and the Pacific Southwest, and an analysis of other specific events.

'More than an Ally'? Maryanne Kelton, 2016-12-05 With the ascendancy of the Coalition government in 1996 there was a marked shift of emphasis directed to deepening Australia's relations with America. The Coalition government strategically linked security and economic well-being and this linking was contextualized by threats both internal and external. By deepening the relationship of the US alliance in foreign, trade and defence policies, the Australian government sought to resonate on inherited and conservative perceptions of threat in the domestic environment. Maryanne Kelton introduces specific cases to demonstrate both the intensity and complexity of dealing with the US. Through these empirical studies the government's approach is examined across trade, security and industry sectors. The book adds to the current debate as it provides an explanatory framework for understanding the Australian government's choices in its relations with the USA across the broader spectrum of security issues.

The Other Special Relationship Jeffrey D. McCausland, 2007 This volume summarizes the major findings of the conference participants over the last year. Beyond the thematic resemblance between this volume and the previous study of U.S.-UK relations, another similarity is the importance of two events in determining London and Canberra's relations with Washington. The terrorist attacks of September 11, 2001 (9/11) represent the first turning point. The British and Australian governments reacted similarly to these attacks -- immediately identifying 9/11 as a transformative moment in international relations. But the Australian Prime Minister's presence in Washington, DC, during the 9/11 terrorist attacks intensified the personal impact of the events, and within a few days his government had invoked the ANZUS Treaty to offer its full support to the United States. The second big event dominating both U.S.-UK relations and U.S.-Australia relations has been America's management of the Global War on Terror and, in particular, its leadership of the ongoing operations in Afghanistan and Iraq.
