The Art of Recording William Moylan,2012-11-12 The Art of Recording articulates and explores the ways recorded sound is different from live sound, and how those differences can enhance music, including surround sound. It presents a system for developing the critical and analytical listening skills necessary to recognize and understand these sound characteristics--the same skills necessary to create quality recordings-- and for talking about or describing sound. The Art of Recording also considers audio recording as a creative process. The reader will learn to guide the artistry of music recording from its beginning as an idea, through its development during the many stages of the recording sequence, to its final form. Take a new and detailed look at many of the greatest recordings of The Beatles, offering insights into how the recording process shaped their music, and how you can gain control over the craft of making great recordings.

The Music of George Harrison Simon Leng,2003 Viewed by many as hidden in the shadow cast by Lennon and McCartney, Harrison's song writing nonetheless stands on its own merits as an impressive body of work. Originally planned as a celebration of Harrison's music, this is now sadly a commemoration too. Beatles fans the world over mourn the passing of the quiet Beatle, and this book is a fitting tribute to a revered musician. 20 photos.

From The Underground Busking in London CHAPTER4 Busking of the Soul Hideaki Domon,2012-11-18 From The

Underground Busking in London CHAPTER4 Busking of the Soul How many people in Japan know what “busking” means? In Britain, busking is “to earn money by singing or playing a musical instrument in public places,” and singers or players are called “buskers.” Busking has thrived in the London Underground for many years, and has become an established part of the music culture. It gives the travelling public a brief and transient moment to unwind and enjoy music; it is also a tourist attraction at the same time. However, with the modernisation of stations and the increasing number of passengers, busking caused some problems, such as noise, jeopardising passengers’ safety, disputes between buskers, etc. So in 2003 the London Underground Authority introduced a licensing system which requires that anyone wanting to be a busker must pass an audition. Luckily, I was the first Japanese to acquire an official busking licence. This book is a record of my busking between April and November 2005, but other occurrences and anecdotes that took place before those eight months are also included. I hope you will enjoy the book - just like you enjoy listening to your favourite music time and time again! The diary of laughter with the tear of Mr. Domon who was busking in the same time at London Underground as the author James Bowen of the book *Street Cat Named Bob*.

The Man Who Sold the World Peter Doggett,2024-01-17 The Man Who Sold the World is a critical study of David Bowie's most inventive and influential decade, from his first hit, Space Oddity, in 1969, to the release of the LP Scary Monsters (and Super Creeps) in 1980. Viewing the artist through the lens of his music and his many guises, the acclaimed journalist Peter Doggett offers a detailed analysis—musical, lyrical, conceptual, social—of every song Bowie wrote and recorded during that period, as well as a brilliant exploration of the development of a performer who profoundly affected popular music and the idea of stardom itself. Dissecting close to 250 songs, Doggett traces the major themes that inspired and shaped Bowie's career, from his flirtations with fascist imagery and infatuation with the occult to his pioneering creation of his alter-ego self in the character of Ziggy Stardust. What emerges is an illuminating account of how Bowie escaped his working-class London background to become a global phenomenon. The Man Who Sold the World lays bare the evolution of Bowie's various personas and unrivaled career of innovation as a musician, singer, composer, lyricist, actor, and conceptual artist. It is a fan's ultimate resource—the most rigorous and insightful assessment to date of Bowie's artistic achievement during this crucial period.

Chasing the Dragon: The Life and Death of Marc Hunter Jeff Apter,2011-11-01 He had it all-the heroin chic thing before it was chic, the scars, the swagger, an incredible stage presence. After bursting on to the Australian music scene in 1975, Dragon fast developed a reputation for both hard rocking and hard living. As the highly visible and charismatic lead singer, Marc Hunter was the voice behind such timeless hits as 'April Sun in Cuba', 'Are You Old Enough?' and 'Rain'. Yet Hunter was also a maverick whose destructive genius and serious heroin addiction led to a turbulent relationship with his bandmates, including older brother Todd. His fast living contributed to his early death, aged just 44. This intimate and revealing portrait is the first biography of one of the original hard men of Australia rock. It has been written with full co-operation of Marc's mother Voi and his brother and former bandmate Todd, as well contributions from many high-profile Australian music personalities such as James Reyne, John Paul Young, Kate Fitzpatrick, Richard Clapton, Don Walker, Kevin Borich, Tommy Emmanuel and Robert Forster.
