**How to Do Media and Cultural Studies** Jane C. Stokes, 2003-02-24 Providing a student guide to the process of research and writing for media and cultural studies, the author covers both quantitative and qualitative methods and includes a list of useful library resources and essential Web sites.

**Pragmatics of Fiction** Miriam A. Locher, Andreas H. Jucker, 2017-04-10 Pragmatics of Fiction provides systematic orientation in the emerging field of studying pragmatics with/in fictional data. It provides an authoritative and accessible overview of this versatile new field in its methodological and theoretical richness. Giving center stage to fictional language allows scholars to review key concepts in sociolinguistics such as genre, style, voice, stance, dialogue, participation structure or features of orality and literariness. The contributors explore language as one of the creative tools to craft story worlds and characters by drawing on concepts such as regional, social and ethnic language variation, as well as multilingualism. Themes such as emotion, taboo language or impoliteness in fiction receive attention just as the challenges of translation and dubbing, the creation of past and future languages, the impact of fictional language on language change or the fuzzy boundaries of narratives. Each contribution, written by a leading specialist, gives a succinct, representative and up-to-date overview of research questions, theories, methods and recent developments in the field.

**Telecinematic Stylistics** Christian Hoffmann, Monika Kirner-Ludwig, 2020-05-14 Over the last two decades, the study of discourse in film and television has become one of the most promising research avenues in stylistics and pragmatics due to the dazzling variety of source material and the huge pragmatic range within it. Meanwhile, with the advent of streaming and the box set, film and television themselves are becoming separated by an increasingly blurred line. This volume closes a long-standing gap in stylistics research, bringing together a book-level pragmastylistic showcase. It presents current developments from the field from two complementary perspectives, looking stylistically at the discourse in film and the discourse of and around film. This latter phrase comes to mean the approaches which try to account for the pragmatic effects induced by cinematography. This might be the camera work or the lighting, or the mise en scène or montage. The volume takes a multimodal approach, looking at word, movement and gesture, in keeping with modern stylistics. The volume shows how pragmatic themes and methods are adapted and applied to films, including speech acts, (im)politeness, implicature and

context. In this way, it provides systematic insights into how meanings are displayed, enhanced, suppressed and negotiated in both film and televisual arts.

*Seeking the Risen Christa* Nicola Slee, 2011-03-17 Art and feminist theology often explore the figure of the feminine side of Christ. However, the risen Christa has had little if any coverage within these fields. Now, *Seeking the Risen Christa* (by Nicola Slee) uses a well-crafted combination of reflection, illustration and poetry to investigate the Risen Christa. The discussion revolves around the central narratives of the gospels and the major Christological themes. These subjects are re-imagined and revisited from the hypothetical perspective of Christa. Ultimately, Nicola Slee wants *Seeking The Risen Christ* to represent a search for a risen Christa and therefore encourage readers to develop a freer, unlimited relationship with Christ.
