México en el mundo de las colecciones de arte ,1994

Arqueología del occidente y norte de México Phil C. Weigand,1995 Desde el surgimiento del Estado tarasco en la cuenca de Pátzcuaro, Michoacán, hasta el desarrollo cultural por espacio de milenios en una zona del norte de México virtualmente desconocida por la arqueología, pasando por temas tan diversos como análisis de objetos de molienda, interpretación de artefactos de concha, explotación de turquesa en el norte de Mesoamérica, etnoarqueología cerámica y otros, este libro aporta datos novedosos sobre temas o regiones que han sido estudiados. Este libro no solo pone al día nuestro conocimientos sobre temas y regiones importantes, sino que además ofrece una muestra de los nuevos enfoques que actualments se están utilizando para esclarecer el pasado prehispánico del occidente y norte de México.--

En busca del alma nacional Haydeé López Hernández ,2019-09-30 La historia narrada en este libro da cuenta de la persecución del anhelo de Alfonso Reyes donde “procuraría interpretar y extraer la moraleja de nuestra terrible fábula histórica: buscar el pulso de la patria[...]; descubrir la misión del hombre mexicano en la tierra, interrogando pertinazmente a todos los fantasmas y las piedras de nuestras tumbas y monumentos”.

The Oxford Handbook of Mesoamerican Archaeology Deborah L. Nichols,Christopher A. Pool,2012-10-18 The Oxford Handbook of Mesoamerican Archaeology provides a current and comprehensive guide to the recent and on-going archaeology of Mesoamerica. Though the emphasis is on prehispanic societies, this Handbook also includes coverage of important new work by archaeologists on the Colonial and Republican periods. Unique among recent works, the text brings together in a single volume article-length regional syntheses and topical overviews written by active scholars in the field of Mesoamerican archaeology. The first section of the Handbook provides an overview of recent history and trends of Mesoamerica and articles on national archaeology programs and practice in Central America and Mexico written by archaeologists from these countries. These are followed regional syntheses organized by time period, beginning with early hunter-gatherer societies and the first farmers of Mesoamerica and concluding with a discussion of the Spanish Conquest and frontiers and peripheries of Mesoamerica. Topical and comparative articles comprise the remainder of Handbook. They cover important dimensions of prehispanic societies—from ecology, economy, and environment to social and political relations—and discuss significant methodological contributions, such as geo-chemical source studies, as well as new theories

and diverse theoretical perspectives. The Handbook concludes with a section on the archaeology of the Spanish conquest and the Colonial and Republican periods to connect the prehispanic, proto-historic, and historic periods. This volume will be a must-read for students and professional archaeologists, as well as other scholars including historians, art historians, geographers, and ethnographers with an interest in Mesoamerica.
