Young Adult Resources Today Don Latham, Melissa Gross, 2014-05-21 *Young Adult Resources Today: Connecting Teens with Books, Music, Games, Movies, and More* is the first comprehensive young adult library services textbook specifically written for today's multidimensional information landscape. The authors integrate a research-focused information behavior approach with a literature-focused resources approach, and bring together in one volume key issues related to research, theory, and practice in the provision of information services to young adults. Currently, no single book addresses both YA information behaviors and information resources in any detail; instead, books tend to focus on one and give only cursory attention to the other. Key features of this revolutionary book include its success in: Integrating theory, research, and practice Integrating implications for practice throughout the book Integrating knowledge of resources with professional practice as informed by research Integrating both print and electronic formats throughout—within the resource chapters (including websites and social media) Latham and Gross accomplish all this while, paying particular attention to the socially constructed nature of young adulthood, diversity, YA development, and multiple literacies. Their coverage of information

landscapes covers literature (with detailed coverage of both genres and subgenres), movies, magazines, web sites, social media, and gaming. The final chapter cover navigating information landscapes, focusing on real and virtual YA spaces, readers' advisory, programming, and collaboration. Special attention is paid to program planning and evaluation.

The WINNERS! Handbook Judy Freeman, 2009-04-30 Judy Freeman has developed a comprehensive handbook with thoroughly annotated lists of the 2008's best children's books, lesson plans, teacher's guides, stories, songs, and Internet resources. Grades K-6. The WINNERS! Handbook starts with an extensive booklist of Judy's 100 best books of 2008, including many of the big award winners. (If you own Judy's Books Kids Will Sit Still For 3, it follows the same format. Indeed, you can consider the new The WINNERS! Handbook the first update to that book.) Each entry includes a meaty and thoughtful annotation, a germ (a series of practical, do-able, useful, pithy ideas for reading, writing, and illustrating prompts and other activities across the curriculum); a useful list of exemplary related titles; and subject designations for each title to ascertain where the book might fit thematically into your curricular plan or program. There's also a title, author, and subject index for easy access. You find scores of useful and fun ideas, activities, lessons, and ways you can incorporate literature into every aspect of your day and your life. From story hour to school curriculum tie-ins, the many connections include strategies for comprehension, critical thinking skills, research, and problem-solving; games, crafts, songs, plenty of great across-the-curriculum poetry, creative drama and Reader's Theater, storytelling, booktalking, and book discussion. Most of the books included are fabulous read-alouds, read-alones, and natural choices for Guided Reading, Literature Circles, or Book Clubs. Grades K-6.

Built to Last David Macaulay, 2010-10-25 A nomad fashion's a home that's meant to be built and rebuilt. A family tears down an old house and erects a new one in its place. Even the Eiffel Tower wasn't meant to be anything more than temporary. As humans, we don't always build things to endure the test of time. Built to Last brings together the award-winning author and artist David Macaulay's creative, exacting thinking about buildings and designs that were crafted with a strength of structure and purpose that defy the everyday: Castle, Cathedral, and Mosque. This gorgeous volume includes newly researched information about each building and how it was built. And, for the first time ever, the Caldecott Honor-winning Castle and Cathedral appear in full color—with stunning new drawings that enrich the reader's understanding of these structures, and capture intriguing new perspectives and details. Just as the buildings themselves were created to last, our interest in the structures themselves, the people who created them, and the purposes for which they were made endures as well. This impeccably researched volume—a necessary addition to the bookshelf of anyone interested in architecture—celebrates this spirit of endurance and serves as a reminder that building well and leaving something of consequence behind, whether a building, a design, or an idea, is still of the utmost importance.
