Cross-Industry Applications of Cyber Security Frameworks Baral, Sukanta Kumar, Goel, Richa, Rahman, Md Mashiur, Sultan, Jahangir, Jahan, Sarkar, 2022-06-24 Data is the most important commodity, which is why data protection has become a global priority. Data breaches and security flaws can jeopardize the global economy. Organizations face a greater risk of failing to achieve strategy and business goals as cyber threat behavior grows in frequency, sophistication, and destructiveness. A breach can result in data loss, business interruption, brand and reputation harm, as well as regulatory and legal consequences. A company needs a well-thought-out cybersecurity strategy to secure its critical infrastructure and information systems in order to overcome these challenges. *Cross-Industry Applications of Cyber Security Frameworks* provides an understanding of the specific, standards-based security controls that make up a best practice cybersecurity program. It is equipped with cross-industry applications of cybersecurity frameworks, best practices for common practices, and suggestions that may be highly relevant or appropriate in every case. Covering topics such as legal frameworks, cybersecurity in FinTech, and open banking, this premier reference source is an essential resource for executives, business leaders, managers, entrepreneurs, IT professionals, government officials, hospital administrators, educational administrators, privacy specialists, researchers, and academicians.

The included research works deal with estimated models and give resolutions to complex real-life issues. In the field of evolutionary computing and other domains of applications, such as, data mining and fuzzy logic, soft computing techniques play an incomparable role, where it successfully handles contemporary computationally intensive and complex problems that have usually appeared to be inflexible to traditional mathematical methods. Comprising the concepts and applications of soft computing with other emerging research domains, this book cherishes varieties of modern applications in the fields of natural language processing, image processing, biomedical engineering, communication, control systems, circuit design etc.

*Rethinking Development in South Asia* Farid Uddin Ahamed, M. Saiful Islam, Amir Mohammad Nasrullah, 2022-03-17 This book challenges the way development has been conceptualized and practiced in South Asian context, and argues for its

deconstruction in a way that would allow freedom, choice and greater well-being for the local people. Far from taking development for granted as growth and advancement, this book unveils how development could also be a destructive force to local socio-cultural and environmental contexts. With a critical examination of such conventional development practices as hegemonic, patriarchal, devastating and failure, it highlights how the rethinking of development could be seen as a matter of practice by incorporating people's interest, priorities and participation. The book theoretically challenges the conventional notion of hegemonic development and proposes alternative means, and, practically, provides nuances of ethnographic knowledge which will be of great interest to policy planners, development practitioners, educationists and anyone interested in knowing more about how people think about their own development.

**Post-Pandemic Talent Management Models in Knowledge Organizations** Talukdar, Mohammad Rafiqul Islam, Lamagna, Carmen Z., Villanueva, Charles Carillo, Nahar, Rezbin, Hassan, Farheen, 2022-05-27 In today's modern business world, the dominant factor of any organization's success is human capital. Appropriately acquiring and managing talented staff is crucial to the growth and development of companies and provides them with a considerable competitive advantage in the industry. Further study on the importance of talent management is required to ensure businesses are able to thrive in the present environment. Post-Pandemic Talent Management Models in Knowledge Organizations discusses strategic human resource management and the talent management of post-modern knowledge-based organizations during the COVID-19 pandemic and post-pandemic paradigm. Covering critical topics such as organizational performance and creative work behavior, this major reference work is ideal for managers, business owners, entrepreneurs, academicians, researchers, scholars, instructors, and students.
