**Naturaleza americana. Extractivismo y geopolítica del capital. Actuel Marx N° 19** María Emilia Tijoux,2016 En su número 19, esta revista de análisis y reflexión crítica marxista se concentra en la actual crisis del capitalismo desde las herramientas que la especificidad americana proporciona, fundamentalmente su experiencia histórica como tierra que da lugar al lanzamiento del capitalismo de Occidente. Origen de ese patrón (imperial) de relacionamiento con el mundo, hoy, como hace cinco siglos, la naturaleza americana aparece -al decir de Alimonda- ante el pensamiento hegemónico global y ante las elites dominantes de la región, como un espacio subalterno que puede ser explotado, arrasado, reconfigurado, según las necesidades de los regímenes de acumulación vigentes.

*De Chávez a Maduro: Balance y perspectivas* Ramos Pismataro, Francesca,Rodríguez, Ronal F,De Lisio, Antonio,2016-12-16 Por iniciativa del Observatorio de Venezuela de la Universidad del Rosario y de la Red de Estudios Colombo-venezolanos se estructuró un libro con el propósito de ofrecer elementos para el análisis y el debate acerca de las complejas realidades que configuran el panorama político venezolano contemporáneo. Esta obra describe las transformaciones del Estado venezolano desde la llegada del proyecto político de la Revolución Bolivariana, develando las falencias del modelo económico y de la dependencia del petróleo. Está integrado por un conjunto de reflexiones sobre el petróleo y el Estado, el sistema político, las estrategias de despliegue institucional y la política exterior permitiéndole al lector en un contexto altamente ideologizado y politizado tener una comprensión más reposada sobre lo que ha ocurrido en Venezuela como resultado de decisiones políticas y coyunturas particulares.

Petróleo y energías desde las ciencias humanas, sociales y ambientales en América Latina y el Caribe Enoc Alejandro García Rivera ,Elita Luisa Rincón Castillo ,2023-11-09 Las distintas industrias energéticas generan impresiones estampadas de una forma tal sobre las dimensiones y componentes de las sociedades nacionales que han sido capaces de modificarlas, moldearlas, reconfigurarlas o conducir las. Estas impresiones se han delineado a partir de los alcances y matices producidos por los efectos que surgen de su naturaleza y de la dinámica de su industria, así como por el tipo de objeto o dimensión de la colectividad estatal donde terminan incidiendo o reflejándose. Esta realidad, que involucra la interacción entre elementos y condiciones sociales, económicas y, sobre todo, ambientales, invita a emprender su análisis y estudio desde diversas ópticas científicas, pues de lo contrario su comprensión se ve acotada por la falta de un conocimiento integral sobre los mismos. A

partir de un escenario contemporáneo se presenta esta obra que reúne diversas temáticas asociadas con un fenómeno de incidencia global a modo de contribuir, en la medida de lo posible, a su debate.

*Territorial Disputes in the Americas* Jorge Emilio Núñez, 2025-08-20 Territorial disputes are intricate, shaped by historical, legal, geopolitical, social, cultural and other factors. This book uses a multidimensional approach to assess real case scenarios across the Americas, individually and collectively. The work evaluates a selected sample of these disputes, tracing origins to colonial histories, unclear border demarcations or uncharted lands, and challenges enforcing legal boundaries. It then explores critical thematic areas, illustrated with compelling examples—disputes entangled with non-American agents like European nations; colonialism, neo-colonial interference and pervasive colonial mindsets; ongoing, regional differences between neighboring states; and the intricate, sometimes conflicting roles of indigenous communities and implanted populations asserting self-determination, often diverging from states' interests. The work reveals sovereignty and disputes intertwine, encompassing plural agents, roles, contexts, realms and modes of existence beyond traditional views. Cases like the Falkland/Malvinas Islands, Mexico-US border, Amazon region and Antarctica highlight how regional organizations and alliances could enhance peacebuilding, strengthen American states against external powers and challenge traditional unidimensional scholarly approaches with a nuanced, comprehensive perspective. The book will appeal to researchers, academics and policymakers in the areas of Public International Law, Political Science and International Relations, Legal Philosophy, Political Philosophy and Jurisprudence.

*Proceedings of Topical Issues in International Political Geography (TIPG 2023)* Radomir Bolgov, Vadim Atnashev, Timo Duile, Yuriy Gladkiy, Sergey Pogodin, Alexey Tsyb, Andrei Znamenski, 2024-12-23 This proceedings book provides selections from the 2023 Topical Issues in International Political Geography (TIPG) meeting. This gathering addresses the main issues of contemporary political geography and international relations, providing a platform for discussion and collaboration between an international array of experts primarily in the fields of political geography, geopolitics, and international relations. The first section of this volume focuses on international relations, addressing issues such as multipolarity, small states, transport cooperation, politico-geographical processes, and international security in the context of geographic space. Building on these spatially rooted themes, section two presents contributions that focus on the dual processes of globalization or regionalism. Authors of these chapters use historical frameworks to interrogate the nation state, ideology, identity, symbolisms, sovereignty, and memory. In section three, the focus narrows to specific domestic policies—such as those related to gender, public services, elections, and corruption prevention—situated in contemporary conversations about digital transformations. Section four turns to instruments of cultural policy, examining tourism and (in a new addition in

response to developments in the field) education. Similarly, section five introduces a theme new to the conference: migration and socio-demographic processes. These chapters evaluate national, regional, and local aspects of migration and multiculturalism. The final section turns to the still-pressing theme of sustainable development, taking up case studies of nations and international organizations grappling with questions about sustainable growth, political ecology, and environmental culture. The content of the book will be interesting to experts, academics, and students.

**Contemporary U.S.-Latin American Relations** Jorge I. Domínguez, Rafael Fernández de Castro, 2016-03-02 Drawing on the research and experience of fifteen internationally recognized Latin America scholars, this insightful text presents an overview of inter-American relations during the first two decades of the twenty-first century. This unique collection identifies broad changes in the international system that have had significant effects in the Western Hemisphere, including issues of politics and economics, the securitization of U.S. foreign policy, balancing U.S. primacy, the wider impact of the world beyond the Americas, especially the rise of China, and the complexities of relationships between neighbors. The second edition of Contemporary U.S.-Latin American Relations focuses on U.S. neighbors near and far —Mexico, Cuba, Argentina, Brazil, Chile, Colombia, Peru, and Venezuela. Each chapter addresses a country's relations with the United States, and each considers themes that are unique to that country's bilateral relations as well as those themes that are more general to the relations of Latin America as a whole. The book also features new chapters on transnational criminal violence, the Latino diasporas in the United States, and U.S.-Latin American migration. This cohesive and accessible volume is required reading for Latin American politics students and scholars alike.

**Latin America and the Caribbean (LAC) Report** International Assessment of Agricultural Knowledge, Science, and Technology for Development (Project), 2009 The International Assessment of Agricultural Knowledge, Science, and Technology for Development (IAASTD) looks realistically at how we could effectively use agriculture/AKST to help us meet development and sustainability goals. An unprecedented three-year collaborative effort, the IAASTD involved more than 400 authors in 110 countries and cost more than \$11 million. It reports on the advances and setbacks of the past fifty years and

offers options for the next fifty years. The results of the project are contained in seven reports: a Global Report, five regional Sub-Global Assessments, and a Synthesis Report. The Global Report gives the key findings of the Assessment, and the five Sub-Global Assessments address regional challenges. The volumes present options for action. All of the reports have been extensively peer-reviewed by governments and experts and all have been approved by a panel of participating governments. The Sub-Global Assessments all utilize a similar and consistent framework: examining and reporting on the impacts of AKST on hunger, poverty, nutrition, human health, and environmental/social sustainability. The five Sub-Global Assessments cover the following regions: Central and West Asia and North Africa (CWANA) East and South Asia and the Pacific (ESAP) Latin America and the Caribbean (LAC) North America and Europe (NAE) Sub-Saharan Africa (SSA)
