**Teaching English as a Foreign Language** Carola Surkamp, Britta Viebrock, 2018-03-24 Diese Einführung in englischer Sprache präsentiert in 14 Kapiteln die grundlegenden Themen und Gegenstandsbereiche der Englischdidaktik. Gleichmaßen praxisnah wie theoretisch fundiert, behandelt der Band zentrale Prinzipien und Kompetenzbereiche eines modernen Fremdsprachenunterrichts. Ausgehend von den zentralen Akteur/innen (Lehrende und Lernende) und mit Blick auf die Teilbereiche der Sprach-, Literatur- und Kulturdidaktik werden zudem Vorschläge für den Einsatz unterschiedlicher Materialien und Medien diskutiert. Weitere Kapitel widmen sich den institutionellen Organisationsstrukturen und dem Bereich Assessment/Diagnose. Der Band erscheint in zweifarbiger Gestaltung, mit Definitionen und Beispielen sowie mit zahlreichen Abbildungen. This comprehensive introduction presents the fundamental topics and issues of TEFL (Teaching English as a Foreign Language) in 14 chapters. Integrating both profound theoretical and creative practical considerations, the central principles and competence domains of modern foreign language teaching are discussed. Starting with the main classroom agents (teachers and learners), the chapters outline a variety of content areas (language, literature, cultural issues) and thoroughly review materials, media and methods. Additional chapters are concerned with the historical development of English language teaching, its current institutional organisation as well as assessment and evaluation.

Teaching English as a Foreign Language to Young Learners Klaudia Pauliková, 2024-11-15 In the present era, one of the most crucial aspects of foreign language education is the development of communicative competence. It enables us to understand and use language correctly, suitably, and well, regardless of our communicative, social, or cultural situation. This book offers an insight into the phenomenon and presents a qualitative inquiry conducted on 4th grade children in Slovakian primary schools, where English is taught as a foreign language. The aim of the study is to explore, understand, and describe communicative competence from a theoretical viewpoint and progress this knowledge into the reality of formal in-school education. A collection of three research methods investigate how communicative competence is regarded, developed, and understood and whether all of its components are perceived as equally important in the education process.

**Digital Textualities and Spaces in ELT** Theresa Summer, Ralf Gießler, 2025-03-31 The digital world opens up a vast number of spaces such as immersive virtual reality, digital book corners, and discourses marked by hashtags. In this volume, we argue that digital spaces and textualities should play a more central role in English language teaching and learning (ELT), emphasising their multimodal and interactive nature as a means of engaging with different layers of meaning in the target language. Digital spaces function as contact zones where readers and writers communicate, negotiate experiences, and shape collective identities. Within these spaces, digital textualities create opportunities for competence development across various language-related domains, fostering a critical engagement with texts. Bringing together theoretical insights, conceptual developments, and case studies, this volume explores the potential of digital spaces and textualities for ELT while addressing their practical implications.
