Manuel Alvar Ezquerro

Distribución comercial Salvador Miquel Peris, 2008-09 En la vida moderna, el comercio realiza la función del intermediario entre los sectores de distribución y consumo. Desde el momento que unos son los que producen, y otros los que consumen un bien, necesariamente ha tenido que producirse un intercambio, al menos entre dos partes y además, un acoplamiento del espacio y del tiempo, que separan las actividades de producir dicho bien y de consumirlo. En este intercambio entre las partes, el marketing trata de satisfacer necesidades y deseos, e identifica, crea, desarrolla y sirve a la demanda. Mientras la necesidad es una sensación de carencia de algo, el deseo es la forma en la que se expresa la voluntad de satisfacer dicha necesidad. Para poder llevar a cabo este conjunto de actividades, es necesario que existan numerosas personas y entidades que actúan como eslabones intermediarios entre fabricantes y consumidores, formando una trama interdisciplinar de personas y empresas, que constituyen un Sistema Comercial. Para que este sistema, pueda cumplir con sus objetivos, haciendo que los productos lleguen desde su origen al destino es necesario que aparezca lo que se denomina la "Distribución Comercial" cuyos logros se realizan por medio de canales de comercialización. La presente obra de los profesores Miquel, Parra, Lhermie y Miquel Romero, estudia todos los mecanismos del sistema, para que los consumidores tengan los productos que necesitan, en las cantidades que precisan, en el momento que las desean y al menor coste posible. Esta aportación será de gran utilidad, tanto para los académicos, como para los empresarios, por sus contenidos teórico-prácticos, que en la misma se desarrollan. ÍNDICE: La distribución comercial y su papel en la economía y en la sociedad.- Análisis descriptivo de los canales de distribución.- Comercio asociado.- Tipología de establecimientos comerciales minoristas.- Los métodos de venta.- Merchandising.- Estrategias generales de distribución.- Decisiones estratégicas sobre los canales de distribución.- Relaciones internas en el canal de distribución y trade marketing.- Category Management.- La tecnología R.F.I.D.- La mundialización de la distribución.

Nuevo diccionario de voces de uso actual Manuel Alvar Ezquerro,2003 El Nuevo diccionario de voces de uso actual recoge un amplio número de palabras que son empleadas en la prensa escrita durante la última década, y que no figuran en el diccionario de la Academia. Parte de la versión anterior de la obra, el Diccionario de voces de uso actual (1994), del que se han suprimido las entradas de palabras que recoge la Academia en la última edición de su diccionario (2001). De las 5309

entradas y 8669 citas de la edición anterior, se ha pasado a más de 12000 voces con más de 21000 citas. A este resultado se ha llegado tras un atento examen realizado durante varios años de periódicos (diarios, revistas de información general, revistas de divulgación científica) españoles, de ámbito general, a la vez que, siempre que ha sido posible, se ofrecen apariciones de esas voces en la prensa americana que se puede, o podía, consultar a través de Internet. Este Nuevo diccionario de voces de uso actual constituye, pues, un valioso complemento de la obra académica porque en él figuran voces o acepciones que no podemos considerar como nuevas en la lengua, pero que no constan en el repertorio oficial, como puedan ser abatible, acojonante, basket, buque insignia, casco antiguo, cowboy, donut, emilianense, escaléxtric, inasumible, orsay, pichichi, pitagorín, rififí, y tantos otros, entre los que hay no pocos tecnicismos (como betahidroxiácido, clembuterol, encefalocele, eritromicina, etc.). También aparecen en el Nuevo diccionario de voces de uso actual deslizamientos semánticos que proporcionan sentidos nuevos a palabras viejas (agujero, bisagra, búho, chaqué, corbata, dragón, egoísta, feudo, fontanero, etc.). El Nuevo diccionario de voces de uso actual que se presenta resulta ser no sólo un complemento del Diccionario de la Real Academia Española, sino también un auxiliar para los estudiosos del español.

Cada una de estas áreas específicas aparece estructurada y descrita tanto en su vertiente de fundamentación teórica como en su aplicación práctica. Contiene un repertorio amplio de propuestas didácticas sobre los temas desarrollados con modelos, fórmulas y recursos lingüísticos variados para trabajo en el aula.

Pluralismo religioso en España: Sectas y nuevos movimientos religiosos Julián García Hernando, 1992 Mucha gente se queja de que alguno de sus hijos ha sido captado por alguna de las sectas o de los nuevos movimientos religiosos, los cuales les han obligado a romper totalmente los vínculos con la familia. Psicólogos, teólogos, sociólogos, historiadores, fenomenólogos de la religión, cada uno desde su punto de vista, estudian el fenómeno, apuntan explicaciones y soluciones al mismo o le aplican los correspondientes correctivos. Hay no pocos padres que han experimentado en su carne el paso de las sectas por su propio hogar y se sienten, no sólo dolidos y defraudados ante el hecho, sino también desconcertados. Buscan orientación y no les resulta fácil hallarla, porque hay una lamentable desinformación del tema entre sacerdotes y pastores. Cubrir ese vacío es lo que pretende el presente volumen.
