The Oxford Guide to the Malayo-Polynesian Languages of Southeast Asia Alexander Adelaar, Antoinette Schapper, 2024-06-27 This volume presents the most wide-ranging treatment available today of the Malayo-Polynesian languages of Southeast Asia and their outliers. It offers a comprehensive account of the historical relations and typological diversity in the group, including current debates in their prehistories and descriptive priorities for future study.

Here - Hither - Hence and Related Categories Julia Nintemann, Maja Robbers, Nicole Hober, 2020-07-20 As a follow-up study to the global comparison of spatial interrogatives (*Studia Typologica* 20), the present book examines the spatial declarative counterparts which are provided by the expression class of spatial deictic adverbs. In a functionally motivated typological approach, equivalents of Early Modern English *here - hither - hence* and *there - thither - thence* are identified across a sample of 250 languages from all macro-areas. These are also quantitatively assessed to extrapolate areal and global trends of coding patterns. The formal relationships between spatial interrogative and spatial declarative paradigms are analyzed with a focus on the syncretism of categories and of individual cells. Qualitative discussions of patterns precede in-depth treatments of problematic cases and other relevant issues related to the research topic. The quantitative results strongly point to areal linguistic trends concerning the distribution of distinct and non-distinct coding of the three spatial relations Place, Goal, and Source. Additional aspects such as quantitative evaluations of constructional complexity are addressed subsequently.

AMC art book Sabrina Kamstra,Simon Knepper,Johan Kortenray,2003 An art collector who was a patient at the Amsterdam Medical Center once expressed his gratitude with a donation of several works of art, the seed for the extraordinary modern art collection that now flourishes at the Amsterdam Medical Center. Since it began seriously cultivating its art collection in the 1980s, the Center has amassed approximately 5,000 works by Dutch and Dutch-resident artists. The Amsterdam Medical Center Art Book is an extraordinary showcase of the Center's rich and diverse collection, which focuses on Dutch art from the 1950s through the 1970s. The book highlights several stunning examples within the collection of such benchmark art movements as CoBrA, Mixed Media Art, Zero Art, and New Figuration. Other fascinating pieces featured in the book were created by artists-in-residence, who were allowed to draw from live scenes in the Center's operating theater and maternity ward. This volume ultimately presents a fascinating survey of Dutch post-war art, with over 100 vibrant color illustrations that include works by Eugene Brands, Karel Appel, Constant, Marc Mulders, Roy Villevoey, and Marlene Dumas.
