Peter Melville Logan, Olakunle George, Susan Hegeman, Efraín Kristal

Reading the Novel in English 1950 - 2000 Brian W. Shaffer, 2009-02-09 Written in clear, jargon-free prose, this introductory text charts the variety of novel writing in English in the second half of the twentieth century. An engaging introduction to the English-language novel from 1950-2000 (exclusive of the US). Provides students both with strategies for interpretation and with fresh readings of selected seminal texts. Maps out the most important contexts and concepts for understanding this fiction. Features readings of ten influential English-language novels including Margaret Atwood's *The Handmaid's Tale*, Kazuo Ishiguro's *Remains of the Day* and Chinua Achebe's *Things Fall Apart*.

The Dream of the Great American Novel Lawrence Buell, 2014-02-10 “Magisterial . . . make[s] you suddenly see new things in familiar books . . . brilliant analyses of a dozen or so front-runners in the Great American Novel sweepstakes.” —Michael Dirda, *Virginia Quarterly Review* The idea of “the great American novel” continues to thrive almost as vigorously as in its nineteenth-century heyday, defying more than 150 years of attempts to dismiss it as amateurish or obsolete. In this landmark book, the first in many years to take in the whole sweep of national fiction, Lawrence Buell reanimates this supposedly antiquated idea, demonstrating that its history is a key to the dynamics of national literature and national identity itself. The dream of the G.A.N., as Henry James nicknamed it, crystallized soon after the Civil War. In fresh, in-depth readings of selected contenders from the 1850s onward in conversation with hundreds of other novels, Buell delineates four “scripts” for G.A.N. candidates and their themes, illustrated by such titles as *The Scarlet Letter*, *The Great Gatsby*, *Invisible Man*, *Uncle Tom’s Cabin*, *Beloved*, *Moby-Dick*, and *Gravity’s Rainbow*—works dwelling on topics from self-invention to the promise and pitfalls of democracy. The canvas of the great American novel is in constant motion, reflecting revolutions in fictional fashion, the changing face of authorship, and the inseparability of high culture from popular. As Buell reveals, the elusive G.A.N. showcases the myth of the United States as a nation perpetually under construction. “Engaging and provocative . . . ultimately affirms the importance of literature to a nation’s sense of itself.” —Sarah Graham, *Times Literary Supplement* “Rich in critical insight . . . Buell wonders if the GAN isn’t stirring again in surprising new developments in science fiction. An impressively ambitious literary survey.” —Booklist (starred review)

The Cambridge History of the American Novel Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre, by leading experts in the field.

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve-volume series presenting a comprehensive, global, and up-to-date history of English-language prose fiction, written by a large, international team of scholars. The series is concerned with novels as a whole, not just the 'literary' novel, and each volume includes chapters on the processes of production, distribution, and reception, and on popular fiction and the fictional sub-genres, as well as outlining the work of major novelists, movements, and tendencies. This book offers an account of US fiction during a period demarcated by two traumatic moments: the eve of the entry of the United States into the Second World War and the onset of the Covid-19 pandemic. The aftermath of the Second World War was arguably the high point of US nationalism, but in the years that followed, US writers would increasingly explore the possibility that US democracy was a failure, both at home and abroad. For so many of the writers whose work this volume explores, the idea of nation became suspect as did the idea of national literature as the foundation for US writing. Looking at post-1940s writing, the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism, a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved. During this period, the novel has had significant competition for the US public's attention from other forms of narrative and media: film, television, comic books, videogames, and the internet and the various forms of social media that it spawned. If, however, the novel becomes a residual form during this period, it is by no means archaic. The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms (such as film, television, comic books, and digital media) and the emergent voices typically associated with multiculturalism in the United States.
