The Bloomsbury Encyclopedia of Utilitarianism James E. Crimmins,2017-01-26 The idea of utility as a value, goal or principle in political, moral and economic life has a long and rich history. Now available in paperback, The Bloomsbury Encyclopedia of Utilitarianism captures the complex history and the multi-faceted character of utilitarianism, making it the first work of its kind to bring together all the various aspects of the tradition for comparative study. With more than 200 entries on the authors and texts recognised as having built the tradition of utilitarian thinking, it covers issues and critics that have arisen at every stage. There are entries on Plato, Epicurus, and Confucius and progenitors of the theory like John Gay and David Hume, together with political economists, legal scholars, historians and commentators. Cross-referenced throughout, each entry consists of an explanation of the topic, a bibliography of works and suggestions for further reading. Providing fresh juxtapositions of issues and arguments in utilitarian studies and written by a team of respected scholars, The Bloomsbury Encyclopedia of Utilitarianism is an authoritative and valuable resource.

Unpacking the Death Penalty in ASEAN Sriprapha Petcharamesree,Mark P. Capaldi,Alan Collins,2023-03-20 This book contributes conceptually, theoretically and morally to a deeper understanding of the distinctive Asian perceptions of punishment, justice and human rights. Researched and prepared by scholars who have not only been conducting studies on the death penalty in the region but have also been advocating for legal reforms, this edited book touches upon the different justifications for the use of capital punishment in the ASEAN region, exposing the secrecy, sensitivities and dilemmas that mask violations of international human rights laws. The chapters bring in numerous new perspectives which have been overlooked in the traditional discourse surrounding the use of the death penalty, such as that around crimes that do not meet the threshold of “most serious”; the dignity of death row inmates and their families; contradictions within religion and capital punishment; and the way in which growing authoritarianism and the media are adversely influencing the public’s perception and support for capital punishment in the region. In examining how public opinion shapes state policies towards the death

penalty and how it varies according to different offences and different states, the authors critically analyse how the international human rights mechanisms have specifically called for ASEAN member states to refrain from extending the application of the death penalty and to limit it to the “most serious crimes.” Relevant to socio-legal scholars focused on crime and punishment in Southeast Asia, and in the Global South more broadly, this is a landmark collection in criminology and human rights scholarship. Chapter ASEAN and the Death Penalty: Theoretical and Legal Views and a Pathway to Abolition is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Utilitarianism in the Early American Republic James E. Crimmins, 2021-11-01 In *Utilitarianism in the Early American Republic* James E. Crimmins provides a fresh perspective on the history of antebellum American political thought. Based on a broad-ranging study of the dissemination and reception of utilitarian ideas in the areas of constitutional politics, law education, law reform, moral theory and political economy, Crimmins illustrates the complexities of the place of utilitarianism in the intellectual ferment of the times, in both its secular and religious forms, intersection with other doctrines, and practical outcomes. The pragmatic character of American political thought revealed—culminating in the postbellum rise of Pragmatism—stands in marked contrast to the conventional interpretations of intellectual history in this period. *Utilitarianism in the Early American Republic* will be of interest to academic specialists, and graduate and senior undergraduate students engaged in the history of political thought, moral philosophy and legal philosophy, particularly scholars with interests in utilitarianism, the trans-Atlantic transfer of ideas, the American political tradition and modern American intellectual history.

Review Journal of Philosophy & Social Science ,2002

Taking Life Torbjörn Tännsjö,2015-08-03 When and why is it right to kill? When and why is it wrong? Torbjörn Tännsjö examines three theories on the ethics of killing in this book: deontology, a libertarian moral rights theory, and utilitarianism. The implications of each theory are worked out for different kinds of killing: trolley-cases, murder, capital punishment, suicide, assisted death, abortion, killing in war, and the killing of animals. These implications are confronted with our intuitions in relation to them, and our moral intuitions are examined in turn. Only those intuitions that survive an understanding of how we have come to hold them are seen as 'considered' intuitions. The idea is that the theory that can best explain the content of our considered intuitions gains inductive support from them. We must transcend our narrow cultural horizons and avoid certain cognitive mistakes in order to hold considered intuitions. In this volume, suitable for courses in ethics and applied ethics, Tännsjö argues that in the final analysis utilitarianism can best account for, and explain, our considered intuitions about all these kinds of killing.
