Invisible Women Maria Alex Lopez,2013-09-26 This book is based on a phenomenological study on undocumented Mexican immigrant mothers of high school students who have lived in the U.S. for at least five years and received social services. Most of these mothers have emigrated from rural areas of the central and southern Mexican States of Guanajuato, Michoacan, Queretaro, among others. According to the participants, socio-economic conditions forced them to leave their homelands hoping to find a better life in the U.S.

Portraits of women Gamaliel Bradford,2025-04-24 In 'Portraits of Women,' Gamaliel Bradford masterfully intertwines a series of biographical sketches that explore the nuances, struggles, and triumphs of notable women throughout history. Utilizing a lyrical yet precise literary style, Bradford delves into the emotional and psychological landscapes of his subjects, revealing both their vulnerabilities and strengths. Set against the backdrop of the early 20th century, a time of profound social change, the work reflects a growing awareness of women's roles in society, blending literary biography with elements of feminism and sociology to create a compelling narrative that resonates with the complexities of womanhood. Gamaliel Bradford, an American biographer and essayist born in 1863, was deeply influenced by the literary movements of his time, particularly the rise of modernist thought and the suffragist movement. His keen interest in sociology and psychology shaped his portrayal of women, enabling him to bring forth nuanced insights into their lives, thus advocating for recognition and appreciation of female perspectives. In 'Portraits of Women,' Bradford not only recounts the lives of influential figures but also presents a broader commentary on societal expectations and the power of personal narrative. This engaging collection is highly recommended for readers seeking a profound exploration of women's history through Bradford's insightful lens. Scholars and general readers alike will find wisdom in these intimate portraits, celebrating the strength and resilience of women who have shaped our world. 'Portraits of Women' serves as both a tribute and a challenge to recognize the impact of

women's experiences in our shared narrative.

Tales from Jalisco, Mexico Howard True Wheeler, 1943

Between the Lines Larry Siems, 1995-04-01 In the continuing U.S. debate over illegal immigration, a human face has rarely been shown. The topic has been presented as a monolithic abstraction, a creation of statistics, political rhetoric, and fear. This collection of letters between undocumented immigrants in California and their families back home reveals the other side of the story. Published for the first time in paperback, *Between the Lines* reveals the often poignant human drama currently being played out along the U.S.-Mexico border. The letters, presented in Spanish and English, express powerful feelings of hope, uncertainty, and fear among the undocumented travelers as they arrive in the United States and seek work, social support and legal status. The letters from their families in Mexico, Guatemala, and El Salvador return feelings of hope, love, and support. Translator/editor Siems provides a powerful and lyrical introductory essay that sets the stage for the letters that follow.

A Romance Perspective on Language Knowledge and Use Rafael Núñez-Cedeño, Luis López, Richard Cameron, 2003-10-16
Twenty-one articles from the 31st LSRL investigate cutting-edge issues and interfaces across phonology, pragmatics, sociolinguistics, semantics, and syntax in multiple dialects of such Romance languages as Catalan, French, Creole French, and Spanish, both old and modern. Research in Romance phonology moves from the quantitative and synchronic to cover issues of diachrony and Optimality theory. Work within pragmatics and sociolinguistics also explores the synchronic/diachronic link while topicalizing such issues as change of non-pro-drop Swiss French toward pro-drop status, scalar implicatures, speech acts, word order, and simplification in contexts of language contact. Finally, debates in linguistic theory are resumed in the work on syntax and semantics within both a Minimalist perspective and an Optimality framework. How do Catalan and French children acquire AGR and TNS? Can Basque Spanish be compared to topic-oriented Chinese? If Spanish preverbal subjects occur in an A-position, can Spanish no longer be compared to Greek?
