Integrating Literacy Naturally Kim Pinkerton, Amelia Hewitt, 2020-09-01 *Integrating Literacy Naturally* is a guide for nurturing a love of literacy in both teachers and young children. More than a hundred children's book titles and other resources serve as springboards for cultivating that love and meeting individual literacy needs in developmentally appropriate ways. And, educator spotlight stories show how theories move to practice. Pinkerton and Hewitt draw on their love of literacy and over four decades of combined experience to help readers navigate individualized instruction, purposeful play, literacy integration, classroom libraries, and a reimagined workshop approach. Examples for how to do all of this with children's texts are presented throughout the book. Eight guiding principles provide an easy path to becoming an intentional, authentic teacher who focuses on the individual needs of children and avoids one-sized literacy instruction. The principles

grew from heart to heart conversations the authors had about joyful reading and writing experiences being reduced to worksheets and rote memorization in many classrooms. This book moves teachers far away from drill the skill literacy. Use it as a guide on your path to making literacy learning both playful and intentional in the early childhood classroom.

The Last Bookseller Gary Goodman, 2021-12-07 A wry, unvarnished chronicle of a career in the rare book trade—now in paperback When Gary Goodman wandered into a run-down, used-book shop that was going out of business in East St. Paul in 1982, he had no idea the visit would change his life. He walked in as a psychiatric counselor and walked out as the store's new owner. In *The Last Bookseller* Goodman describes his sometimes desperate, sometimes hilarious career as a used and rare book dealer in Minnesota—the early struggles, the travels to estate sales and book fairs, the remarkable finds, and the bibliophiles, forgers, book thieves, and book hoarders he met along the way. Here we meet the infamous St. Paul Book Bandit, Stephen Blumberg, who stole 24,000 rare books worth more than fifty million dollars; John Jenkins, the Texas rare book dealer who (probably) was murdered while standing in the middle of the Colorado River; and the eccentric Melvin McCosh, who filled his dilapidated Lake Minnetonka mansion with half a million books. In 1990, with a couple of partners, Goodman opened St. Croix Antiquarian Books in Stillwater, one of the Twin Cities region's most venerable bookshops until it closed in 2017. This store became so successful and inspired so many other booksellers to move to town that Richard Booth, founder of the “book town” movement in Hay-on-Wye in Wales, declared Stillwater the First Book Town in North America. The internet changed the book business forever, and Goodman details how, after 2000, the internet made stores like his obsolete. In the 1990s, the Twin Cities had nearly fifty secondhand bookshops; today, there are fewer than ten. As both a memoir and a history of booksellers and book scouts, criminals and collectors, *The Last Bookseller* offers an ultimately poignant account of the used and rare book business during its final Golden Age.

Fundamentals of Collection Development and Management, Fourth Edition Peggy Johnson, 2018-07-23 Technical Services Quarterly declared that the third edition “must now be considered the essential textbook for collection development and management ... the first place to go for reliable and informative advice. For the fourth edition expert instructor and librarian Johnson has revised and freshened this resource to ensure its timeliness and continued excellence. Each chapter offers complete coverage of one aspect of collection development and management, including numerous suggestions for further reading and narrative case studies exploring the issues. Thorough consideration is given to traditional management topics such as organization of the collection, weeding, staffing, and policymaking; cooperative collection development and management; licenses, negotiation, contracts, maintaining productive relationships with vendors and publishers, and other important purchasing and budgeting topics; important issues such as the ways that changes in information delivery and

access technologies continue to reshape the discipline, the evolving needs and expectations of library users, and new roles for subject specialists, all illustrated using updated examples and data; and marketing, liaison activities, and outreach. As a comprehensive introduction for LIS students, a primer for experienced librarians with new collection development and management responsibilities, and a handy reference resource for practitioners as they go about their day-to-day work, the value and usefulness of this book remain unequalled.

Snap out of It Ellen Teitelman Wohl, 2022-06-21 In *Snap Out of It: An Unexpected Caregivers Way to Self-Care, Stability, and Survival*, author Ellen Teitelman Wohl shares her honest, emotional?—?sometimes funny?—?memoir of the continuing struggle to keep life whole while her husband Jack's health falls apart, over and over again: bipolar disorder, coronary artery disease, lung cancer, diabetes, and normal pressure hydrocephalus, among other medical conditions. While Jack has a remarkable team of doctors treating him, Ellen only has herself to rely on. As the unexpected caregiver, she deals with anxiety, frustration, and exhaustion day after day. She thinks something is wrong with her, but she eventually learns that caregiver burnout is real. Her inner-strength and resilience emerge through the personal discovery of “snap out of it” relief routines, self-care concepts, and ideas. The “snaps,” interspersed throughout the narrative, share light-hearted stories, personal experiences, and techniques that form the basis of her mental getaways that include cooking, gardening, reading, exercising, laughing, and more. Ellen finally discovers support groups and guidance, which she shares in this memoir. Her curated resource guide leads you to websites, apps, and support groups dedicated to caregivers.
