Colonialism: A Moral Reckoning Nigel Biggar,2023-02-02 The Sunday Times Bestseller A new assessment of the West's colonial record In the wake of the dissolution of the Soviet empire in 1989, many believed that we had arrived at the 'End of History' – that the global dominance of liberal democracy had been secured forever.

What is Colonialism? Patrick Colm Hogan,2023-11-30 What is Colonialism? develops a clear and rigorous account of what colonialism is and how it works. It draws on and synthesizes recent work in cognitive science, affective science, and social psychology, along with Marxism and related forms of analysis. Hogan begins with some fundamental conceptual distinctions, such as the degree to which a group shares beliefs, dispositions, and skills versus the degree to which they share identification with a category. Building on these distinctions, he defines colonialism in terms of political, economic, and cultural autonomy, clarifying the nature of culture and autonomy particularly. He goes on to articulate an invaluable systematic account of the varieties of colonialism. The final chapters outline the motives of imperialists, differentiating these from their ideological rationalizations, and sketching the harms caused by colonialism. The book concludes by considering when, or if, one can achieve a genuinely postcolonial condition. Hogan illustrates these analyses by examining influential literary works—by European writers (such as Joseph Conrad) and by non-Europeans (such as Athol Fugard, Kamala Markandaya, and Wole Soyinka). This accessible and informative volume is the ideal resource for students and scholars interested in colonialism and empire.

Decolonizing Global Health Ferdinand C Mukumbang,2025-12-18 This insightful work uses a critical realist perspective to unpack the colonially informed culture, structures, and mechanisms which exist across global health institutions, offering a vision for radical change through a process of decolonization. Shedding light on the institutional structures that perpetuate and sustain long-standing power imbalances in global health research and practice, post-colonial critical realism provides a cogent, meta-theoretical basis for understanding colonialism and decolonization. It reveals these structures as social constructions rather than naturally occurring phenomena. In astutely examining a range of factors, from the language of global health to the principles and practice of research in this field, the book identifies not only the role that colonialism continues to play, but also the means by which it can be subverted. Written by a prominent author in this

important field of study, this book will be key reading for students and scholars from public health to medicine, as well as philosophy, anthropology, and development studies.

The Truth About Empire Alan Lester, 2024-06-27 The Truth About Empire comes from expert historians who believe that the truth, as far as we can ascertain it, matters; that our decades of painstaking research make us worth listening to; and that our authority as leading professionals should count for something in today's polarised debates over Britain's imperial past. Colonial history is now a battlefield in the culture war. The public's understanding of past events is continually distorted by wilful caricatures. Communities that long struggled to get their voices heard have, in their fight to highlight the hidden horrors of colonialism, alienated many who prefer a celebratory national history. The backlash, orchestrated by elements of the media, has generated a new, concerted denial of imperial racism and violence in Britain's past—a disinformation campaign sharing both tactics and motivations with those around Covid, Brexit and climate change. From Australia and China to South Africa and Egypt, this essay collection is an accessible guide to the British Empire, and a weapon of defence against the assault on historical truth. The disturbing stories told in these pages, of Empire's culture, politics and economics, show why professional research matters, when deciding what can and cannot be known about Britain's colonial history.

Christianity and Empire Revisited, 2025-09-25 Were missionaries simply religious agents of imperialism? If you have ever asked—or been asked—this question, then this book is for you. Bringing together historians, literary specialists, and mission scholars, it explores the complexities of the subject, highlighting its many nuances. Figures like Henry Havelock, deeply involved in Britain's suppression of the 1857 Indian Rebellion, were undoubtedly tied to imperial power. Yet, missionaries and their supporters were also the moral absolutists of their time—sincerely, if at times naively, committed to ideas of human liberation. At the same time, Christianity's commitment to translation played a role in preserving indigenous languages and literary traditions, adding another layer to this thought-provoking discussion. Contributors are Brian Stanley, Alec Ryrie, Michael Snape, Nicholas J. Wood, Ashish Alexander, Julian Thompson, Emily Burgoyne, Kyama Mugambi, Kirsteen Kim, and Kang-San Tan.

Human Perfection, Transfiguration and Christian Ethics Robin Gill, 2024-05-16 Examining contemporary secular culture and the New Testament, this study explores the contradictions of the concept of human perfection.

Travel and Colonialism in 21st Century Romantic Historical Fiction Paloma Fresno-Calleja, Hsu-Ming Teo, 2024-12-16 Romantic fiction has often involved stories of travel. In narratives of the journey towards love, romance often involves encounters with exotic places and peoples. When history is invoked in such stories, the past itself is exoticised and treated as other to the present to serve the purposes of romanticisation: a narrative strategy by which all manner of things – settings, characters, costumes, customs, consumables – are made to perform a luxuriant otherness that amplifies the experience of love. This volume questions the reparative function of Anglophone romantic historical fiction to ask: can plots of travel and

discourses of tourism empower women while narrating stories of healing for the wounds of the past? This is the first volume to consider how romanticised and exoticised women's historical fiction not only serves the purposes of armchair travel but may also replicate colonial discourse, unintentionally positioning readers as neocolonial, neo-Orientalist cultural voyeurs as well as voyagers.

The Crisis of Colonial Anglicanism Martyn Percy,2025-01-16 This book offers a fresh, bold and unsettling truth: the British Empire and Great Britain are primarily English constructions; and the Church of England has presumed to act for and benefit from English enterprise and exploitation, serving as the spiritual arm of the imperial project. English Anglicanism has developed itself as the lead character within its own 'serious fiction'—the main religious player in a drama of Church and Empire. Yet, in collusion with colonialism, it is now a prisoner of its own historical amnesia. Martyn Percy examines the English interests concealed in appeals to Britishness, and shows how slavery, exploitation, classism and racism played their part in the elitist and hierarchical worldviews propagated by the English to bolster both Empire and Church. Yet, by regarding the rest of the world as lesser, both institutions have slowly degenerated in global standing. Now, 'Britain' and the Church of England are no more than minor national players on the world stage. Religious, social and political imperialism are founded on the deprecation of others. Yet those peoples who were once looked down upon have fought for equality and independence. Today, the worldwide Anglican Communion faces a new era of moral reckoning.

Romania's Tortured Road Toward Modernity Thomas J. Keil,2006 This book addresses the form and nature of the transition Romania has undergone since the fall of the Ceausescu regime in 1989. The reconstruction of Romania has taken place not only within the context of the legacy of state socialism, but within an even greater context of general historical, political social and economic legacies. Some of the problems Romania has encountered during this progression are its system of social stratification, economic development and the struggle to create a solid national identity.
