**Caravaggio** Michelangelo Merisi da Caravaggio, 2006 This volume considers Caravaggio's revolutionary realism from a range of perspectives, presenting new avenues for research by a plurality of leading scholars. First, it advances our understanding of Caravaggio's relationship with the new science of observation championed by Galileo. Second, it examines afresh the theoretical nature and artistic means of Caravaggio's seemingly direct realism. Third, it extends the horizons of research on Caravaggio's complex intellectual and social milieu between high and low cultures. Genevieve Warwick is Senior Lecturer in the Art History department at the University of Glasgow.

**Caravaggio** Sybille Ebert-Schifferer, 2012-06-05 The young Michelangelo Merisi da Caravaggio (1571-1610) created a major stir in late-sixteenth-century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings. One might think, given the vast number of books that have been written about him, that everything that could possibly be said about the artist has been said. However, the author of this book argues, it is important to take a fresh look at the often repeated and widely accepted narratives about the artist's life and work. Sybille Ebert-Schifferer subjects the available sources to a critical reevaluation, uncovering evidence that the efforts of Caravaggio's contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals. Contrary to repeated claims in the literature, the painter lacked neither education nor piety, but was an extremely accomplished technician who developed a successful marketing strategy. He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators. Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate. The beautiful reproductions of Caravaggio's paintings in this volume make clear why he captivated the imagination of his contemporaries, a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians.

Caravaggio Denis Mahon, 2005

Caravaggio & His Followers in Rome David Franklin, Sebastian Schütze, 2011 The Italian artist Caravaggio (1571-1610) had a profound impact on a wide range of baroque painters of Italian, French, Dutch, Flemish, and Spanish origin who resided in Rome either during his lifetime or immediately afterward. This captivating book illustrates the notion of Caravaggism, showcasing 65 works by Peter Paul Rubens and other important artists of the period who drew inspiration from Caravaggio. Also depicted are Caravaggio canvases that fully exhibit his distinctive style, along with ones that had a

particularly discernible impact on other practitioners. Caravaggio's influence was greatest in Rome, where his works were seen by the largest and most international group of artists, and was at its peak in the early decades of the 17th century both before and after his untimely death at the age of 39. Not since Michelangelo or Raphael has one European artist affected so many of his contemporaries and over such broad geographic territory. Essays by an array of major Caravaggio scholars illuminate the underlying principles of the exhibit, reveal how Caravaggio altered the presentation and interpretation of many traditional subjects and inspired unusual new ones, and explore the artist's legacy and how he irrevocably changed the course of painting.--Publisher's description.

Caravaggio Vittorio Sgarbi, 2007 Art critic, historian, writer, TV presenter, politician and professional provocateur, Vittorio Sgarbi is a prominent figure in Italy's cultural landscape. Controversial, often caustic, and always charismatic, his thought-provoking opinions and writings leave no room for indifference. In this highly readable and well-informed book, Sgarbi covers the life and works of Caravaggio, analyzing the genius's disordered and adventurous existence and the revolutionary greatness of his masterpieces. As Vittorio Sgarbi writes in the book: The life and work of an artist always end up looking alike; but in Caravaggio's life there was a sense of fun, an enjoyment of burlesque and a lack of propriety that is not reflected even in his in most daring works. In Caravaggio, we had the cohabitation of a sophisticated, intellectual capable of imprinting an ideal turning point in the course of history and the principal character of an adventure story-quarrelsome, overbearing, cursed-as he was portrayed in romantic interpretations. On the other hand, his intemperance cannot be ascribed to the spirit of the times; behavior that we would call extravagant today was instead common in such violent and difficult times. The true greatness of Caravaggio lay in his having shown the other, and indeed authentic side of reality. But these are external elements, psychological reflections that pass from life into art.
