Follow Arthur, a humble mechanic from a small Welsh town, as he becomes an unwilling participant in a 1500-year-old prophecy. Catapulted into a rollercoaster of myth, magic, and technology, Arthur must navigate modern challenges and ancient enigmas. Witness the awakening of Merlin, the legendary wizard, who aids Arthur in battling an oppressive government unwilling to serve its people. Join Arthur and his companions as they delve into a hidden chamber brimming with untold wealth and witness the transformation of Nimue, a mystical guardian grappling with her past and humanity's future. *Echoes of Avalon* masterfully blends the allure of ancient myths with the complexities of the modern world, creating a story where history, fantasy, science, and reality collide. As destinies entwine and secrets unfold, each character must confront their demons, revealing tales of betrayal, redemption, power, and unity. **Mirage Men** Mark Pilkington,2010-07-29 Seeking the truth about UFOs in America, Mark Pilkington and John Lundberg uncover a 60 year-old story stranger than any conspiracy thriller. Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage, psychological warfare and advanced military technology. Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe. As he crossed the US meeting intelligence agents, disinformation specialists and UFO hunters Pilkington was confronted with a dizzying array of ever more outrageous claims and counter claims. As a result he began to suspect that, instead of covering up stories of crashed flying saucers, alien contacts and secret underground bases, the US intelligence agencies had actually been promoting them all along. Meanwhile he has to deal with his own uncertainties, the suspicions of the UFO community and a partner who is starting to believe that conspiracy theorists might be right after all. With a fresh, funny and objective approach, Pilkington is the ideal guide to steer us through these strange territories, where nothing is quite as it seems and reality is just a matter of managing perceptions.

**Investigating Light and Shadow With Young Children (Ages 3-8)** Beth Dykstra Van Meeteren, 2022 Children are intrigued by switches that power a light source and by items that reflect light and sparkle, and they take notice of personal shadows cast on the playground. Many fields in STEM draw upon understanding of light and shadow, such as astronomy, biology, engineering, architecture, and more. This second volume in the STEM for Our Youngest Learners Series shows teachers how to engage children (ages 3-8) with light and shadow in a playful way, building an early foundation for the later, more complex study of this phenomena and possibly piquing the curiosity of children that will ultimately lead to professions within the field of STEM. The text offers guidance for integrating literacy learning and investigations and for building partnerships with administrators. Each volume in this new series includes vignettes showing educators and children engaging in inquiry learning, guidance for selecting materials and arranging the learning environment, modifications and accommodations for diverse learners, establishing adult learning communities to support professional development, and more.
